Safety and Security 2012-2013
Guide for Students, Faculty, and Staff & Annual Campus Security and Fire Safety Report

Washington University in St. Louis
Dear Students, Faculty, and Staff,

Washington University in St. Louis is committed to providing a safe environment for all members of our community to learn, live, teach, and work. The safety of our students, faculty, staff, and visitors is a priority.

We will work hard to make the campus safe and secure, but here, as elsewhere, the responsibility for the safety of everyone in our community belongs to each of us individually. Each of us must become familiar with services provided by the University, participate in security programs, and follow basic personal and property crime prevention procedures. With your active involvement in your safety and the safety of your neighbors, Washington University will remain a desirable community.

Safety and security—your own and others’—are issues about which all of us at the University should continue to be vigilant.

Mark S. Wrighton
Chancellor

University at a Glance

Washington University is Tobacco Free.

Danforth Campus
The Danforth Campus is the University’s main campus. It is a 169-acre site bordered by Skinker Boulevard, Forest Park Parkway, Big Bend Boulevard, and Wydown Boulevard.

The grounds are patrolled by the Washington University Police Department (WUPD).

Access to academic and administrative facilities is readily available weekdays 8:30 a.m. to 5:00 p.m. Access to most facilities is limited after normal working hours and on weekends.

The Washington University residence halls are locked 24 hours a day. Access is controlled by electronic card readers. To gain entrance, an individual must use an authorized Washington University identification card. This system is monitored by the WUPD 24 hours a day.

Firearms are prohibited on all University owned, leased, managed, or maintained property.

To contact ambulance, fire, or police while at the Danforth Campus, call 935-5555.

North Campus
The University’s North Campus is located at 700 Rosedale in St. Louis. North Campus houses a variety of administrative offices for the University, including Parking and Transportation, Quadrangle Housing, ROTC, the Family Learning Center and other University departments.

The grounds are patrolled by St. Louis City Police, Allied-Barton Security Company, and WUPD.

Hours of operation: Public access is available weekdays from 8:30 a.m. to 5:00 p.m.

To contact ambulance, fire, or police while at the North Campus, call 911.

South Campus
The University’s South Campus is located in the 6500 block of Clayton Road in Clayton, Missouri. The 8.2-acre site contains eight buildings, providing 169,000 square feet of interior space. The grounds include an athletic field, a track, tennis courts, and a 150-space parking lot. For additional information, contact the Intramural Sports office at the Athletic Complex on the Danforth Campus.

Entry to the facility is controlled by card access, with special authorization required.

West Campus
The University’s West Campus is located at 7425 Forsyth Boulevard in Clayton, Missouri. West Campus houses administrative offices, a conference center, commercial retailers, and the West Campus Library.

The grounds are patrolled by Clayton Police Department, Allied-Barton Security Company, and WUPD.

Hours of operation vary.

Telephone: (314) 935-5193

To contact ambulance, fire, or police while at the South Campus, call 911.
Medical Campus
The University’s Medical Campus is located east of the Danforth Campus at 660 South Euclid in the City of St. Louis. The Medical Campus is home to the WU School of Medicine and its affiliated hospitals. The grounds are patrolled by St. Louis City Police and Medical School Protective Services.
Hours of operation: Public access varies.
Telephone (314) 362-5000.
To contact ambulance, fire, or police while at the Medical Campus, call (314) 362-HELP (4357).

Tyson Research Center
Washington University Tyson Research Center is a 2,000-acre field station that provides numerous unique opportunities for research, environmental studies, preservation, and education. Tyson is situated near the Meramec River, just outside the St. Louis metropolitan area. It is a member of the Organization of Biological Field Stations (OBFS) network and is surrounded and buffered by an additional 6,000 acres of protected park land.
The physical facilities include a central administrative office, lecture room, laboratories, and classrooms. A gate house monitors those entering the grounds. Tyson has a telescope and observatory managed by the Washington University Physics Department.
Enter to Tyson is carefully regulated to protect the environment from uncontrolled disturbances and to safeguard research and teaching projects. All regular users must obtain an entry permit and identification card to operate at Tyson. A Washington University identification card may suffice. Those requesting a Tyson identification card must contact the Tyson Administrative office:
Telephone: (314) 935-8430
To contact ambulance, fire, or police while at Tyson, call 911.

560 Music Center
The 560 Music Center is located at 560 Trinity in University City. It is home to the Department of Music and houses office space, practice rooms, and a variety of performance venues including the 1,100 seat E. Desmond Lee Concert Hall.
The grounds are patrolled by University City Police, WUPD, and WU Neighborhood Security Patrol (NSP).
Hours of operation: Public access varies.
Telephone (314) 935-5574.
To contact ambulance, fire, or police while at the 560 Music Center, call 911.

Lewis Center
The Lewis Center, located at 725 Kingsland Avenue in University City, is home to the College & Graduate School of Art, and offers classroom and studio space.
The grounds are patrolled by University City Police, WUPD, and Allied-Barton Security Company.
Hours of operation: Public access varies.
Telephone (314) 935-8400.
To contact ambulance, fire, or police while at the Lewis Center, call 911.

Facilities
Washington University comprises many buildings and several off-campus locations that serve varied functions and satisfy the diverse needs of its students, faculty, and staff. Access to University facilities is described above; however, emergencies may necessitate changes or alterations to any posted schedules. The University's Safety and Security Committee conducts a semiannual review of the campus to make recommendations on lighting, emergency phones, landscaping, signage, and other safety and security issues and prepares an annual report, and upon request, special reports to the University Administration as necessary.
If a classroom, office, or meeting space is physically inaccessible, contact:
  Disability Resource Center............... (314) 935-4062 (VOICE/TTY)

Closed Circuit Television (CCTV)
Washington University is committed to providing a safe environment for our students, faculty, staff, and guests by integrating the best security practices with state-of-the-art technology. A critical component of a comprehensive security plan is Closed Circuit Television (CCTV), which allows for remote recording of activity throughout campus for the purpose of deterring crime and safeguarding the security of both persons and property within the University community. Cameras are deployed at various locations throughout campus including parking garages, building/campus entrances and exits, and in locations containing sensitive or valuable property. Although every camera is not monitored at all times, the footage recorded by the CCTV cameras can be utilized to assist the University police in their investigation of incidents on campus. Pursuant to University policy, camera placement and use is carefully designed to ensure that it does not violate a reasonable expectation of privacy.
Parking and Transportation Services

Bicycles, Mopeds, and Motorcycles
For many, bicycling or operating a motorcycle, motorbike, motor scooter, or moped is the preferred mode of travel to campus. When operating one of these vehicles, please exercise care and follow the rules of the road and of the University. Accidents involving these vehicles can cause serious injuries to their riders and to pedestrians.

Steps to follow for the lawful operation of a bicycle, motorcycle, motorbike, motor scooter, or moped:

1. Comply with the rules of Washington University; the regulations of the state of Missouri relating to the operation of bicycles, motorcycles, motorbikes, motor scooters, or mopeds; and the rules of the road.
2. Register motorcycles, motorbikes, motor scooters, and mopeds with Parking and Transportation Services. You must have a permit to park any motor vehicle on campus. These vehicles can park only in areas marked “Motorcycle Parking Only.”
3. Bicycles may be parked outside campus buildings in racks or in areas clearly not subject to pedestrian traffic. Do not secure bicycles to ramp railings where they may interfere with wheelchair access. Improperly parked or secured bicycles may be removed.
4. Motorcycles, motorbikes, motor scooters, and mopeds are not permitted on University sidewalks.
5. Accord the right of way to pedestrians on sidewalks, on the road, at street intersections, or in marked crosswalks.
6. You must wear a certified safety helmet when operating a motorcycle, motorbike, motor scooter, or moped. Bicyclists are strongly encouraged to wear a safety helmet.

Parking
You must have a parking permit or pay a meter to park at Washington University. Visitors may park at meters or in yellow zones with a daily pass. All others may park by permit only. Color-coded permits are designated for distinct groups of the University community and distinct areas of the Danforth Campus. Complete permit information and parking rules and regulations are available through Parking and Transportation Services and are also posted on their website, www.parking.wustl.edu.

Automobile parking on the Danforth Campus is very limited. Because of increasing demand for on-campus parking, the University has adopted a policy of strict enforcement, including the use of fines and towing to better protect the rights of those parkers who observe the regulations. The University reserves the right to tow any vehicle parked in violation of University regulations, at the owner's expense.

Firearms (concealed or otherwise) are prohibited on all Washington University-owned property. Firearms may not be stowed in vehicles parked in University lots, garages, or metered spaces.

Daily, monthly, and annual permits may be purchased at the office of Parking & Transportation Services, located at the North Campus at 700 Rosedale Avenue, from 8:30 a.m. to 5 p.m. Monday through Friday. Daily permits for visitors are also available for sale at the Campus Bookstore in Mallinckrodt Center. Annual permits for faculty, staff, and students may be purchased online at www.parking.wustl.edu.

Transportation Services
Washington University in St. Louis offers a comprehensive transportation program. The U Pass program utilizes Metro, the regional public transportation agency. The U Pass program provides free Metro passes for full-time students, benefits-eligible faculty and staff, and full-time employees of qualified service providers. This program provides students and other members of the university community much greater access to the St. Louis metropolitan region on public transit. In addition to the greater access to the region, there are three bus routes that specifically target areas on and around campus, making it easy to move around campus and between campuses. These routes also serve nearby shopping areas and neighborhoods.

Accord the right of way to pedestrians on sidewalks, on the road, at street intersections, or in marked crosswalks.
6. You must wear a certified safety helmet when operating a motorcycle, motorbike, motor scooter, or moped. Bicyclists are strongly encouraged to wear a safety helmet.

Parking
You must have a parking permit or pay a meter to park at Washington University. Visitors may park at meters or in yellow zones with a daily pass. All others may park by permit only. Color-coded permits are designated for distinct groups of the University community and distinct areas of the Danforth Campus. Complete permit information and parking rules and regulations are available through Parking and Transportation Services and are also posted on their website, www.parking.wustl.edu.

Automobile parking on the Danforth Campus is very limited. Because of increasing demand for on-campus parking, the University has adopted a policy of strict enforcement, including the use of fines and towing to better protect the rights of those parkers who observe the regulations. The University reserves the right to tow any vehicle parked in violation of University regulations, at the owner's expense.

Firearms (concealed or otherwise) are prohibited on all Washington University-owned property. Firearms may not be stowed in vehicles parked in University lots, garages, or metered spaces.

Transportation Services
Washington University in St. Louis offers a comprehensive transportation program. The U Pass program utilizes Metro, the regional public transportation agency. The U Pass program provides free Metro passes for full-time students, benefits-eligible faculty and staff, and full-time employees of qualified service providers. This program provides students and other members of the university community much greater access to the St. Louis metropolitan region on public transit. In addition to the greater access to the region, there are three bus routes that specifically target areas on and around campus, making it easy to move around campus and between campuses. These routes also serve nearby shopping areas and neighborhoods.

For more information on the U Pass program and Washington University Transportation Services, visit www.parking.wustl.edu or call (314) 935-4140.

You can also pick up a shuttle schedule and maps at the Information Desk in the Danforth University Center.

Campus-2-Home
The Campus-2-Home shuttle will provide a safe ride home from 7:00 p.m.–4:00 a.m. seven days a week for those living in four designated areas off campus—Skinker-DeBaliviere, Loop South, North of the Loop, and just South of the Campus. The shuttle leaves from both the Mallinckrodt Center and the Brookings Hall staircase and takes passengers
Safety and Security

Police and Protective Services

Washington University Police
Mission Statement

The mission of the Washington University Police Department (WUPD) is to work in partnership with our campus community to cultivate a safe learning environment by providing high-quality police service to all in a fair, sensitive, and professional manner, while promoting crime prevention awareness.

Police Services on the Danforth Campus

The WUPD provides law enforcement services on the Danforth Campus 24 hours a day, 365 days a year. Officers patrol the campus on foot, on bicycles, and in cars. The staff of 44 includes 28 deputized police officers who have been trained in accordance with county and state requirements at the St. Louis County Police Academy. WUPD officers have received the same training as their counterparts in both St. Louis City and St. Louis County, meeting state requirements for police certification. They are armed and authorized to make arrests, investigate criminal and noncriminal incidents, and cooperate in the criminal justice process. On campus, WUPD officers possess the same authority as do St. Louis County police officers.

The University's Danforth Campus is geographically located in four different police venues. Although the primary venue is unincorporated St. Louis County, buildings are also located in St. Louis City, University City, and Clayton; WUPD maintains liaison with these venues through contacts with the police departments that have jurisdiction. While there is no written Memorandum of Understanding between the University and any local law enforcement agencies, St. Louis City, University City, and Clayton police departments often provide the WUPD with reports of incidents occurring in their respective venues. In addition, the WUPD maintains close liaison with other police departments through membership in police associations at the county, state, and national levels.

Protective Services on the Medical Campus

The Medical Campus and certain off-campus properties owned by Washington University in the surrounding area are protected 24 hours a day, 365 days a year by the Protective Services Department ("Protective Services"), a combined force of Response Officers, Communications Officers, Public Safety Officers, and Contract Security Officers. Patrol of the Medical Campus is performed on foot, in marked patrol vehicles, and on specially equipped bikes. All of the Response Officers, Public Safety Officers, and contract security officers are licensed by the Private Security Section of the St. Louis Metropolitan Police Department in conjunction with the
Safety and Security

St. Louis County Police Department, and in-house officers are granted the powers of arrest and search and seizure, among others, on licensed premises during on-duty hours. Some officers are authorized to carry firearms and personal protection devices.

The Medical Campus is located within the Ninth Police District of the City of St. Louis. Liaison is maintained with the St. Louis Metropolitan Police Department through direct contact by Protective Services to share information about crimes committed in the area. Participation with organizations such as the Ninth District Security Directors, Central West End Neighborhood Security Initiative, Forest Park Southeast Neighborhood Association, and Metro Campus Investigators provide additional sources of information.

Police Service at Other Campus and Off-Campus Locations

Police services at off-campus apartments and facilities are provided by the local municipal police departments. In an emergency, call 911 or use a Blue Light Emergency Telephone. (Non-emergency numbers are listed under Resources, beginning on page 39 of this brochure.)

Washington University has established the Neighborhood Security Patrol (NSP) to provide high-visibility nighttime security patrols to neighborhoods where the University owns off-campus housing. Five licensed security officers supervised by a WUPD sergeant patrol designated neighborhoods and high-traffic walkways. The security officers patrol in distinctively marked automobiles and wear hunter green shirts and tan pants. Through the use of these patrols, the University seeks to enhance safety and to assist in addressing student behavioral issues that may impact the quality of life for all residents of the area.

In addition, the University provides nighttime contract security services at the West Campus, North Campus, South Campus, 560 Music Center, and Lewis Center facilities. WUPD contracts with Allied-Barton Security to provide additional patrols.

Bear Patrol

Through a University work-study program, students are employed as members of the Danforth Campus Bear Patrol. The members patrol the Danforth Campus at night as additional eyes and ears for the community, as well as providing escorts to fellow students, faculty, and staff. The Bear Patrol members all wear distinctive vests and are equipped with radios to maintain contact with the WUPD.

Further Inquiries

The WUPD and Protective Services work in partnership with students, faculty, and staff to maintain a safe and secure environment conducive to excellence in teaching, learning, and research. If you have a complaint about our services, we wish to address and resolve it quickly and appropriately. We would also like to hear from you if you would like to commend one of our staff members. Please contact Don Strom, Chief of WUPD via telephone at (314) 935-5514 or email at don_strom@wustl.edu. For Protective Services, please contact John Ursch at (314) 362-HELP (4357) or email at jursch@wustl.edu.

Crime Prevention Tips

Your personal safety and the security of your property while on campus are shared responsibilities. Washington University has made safety and security a priority through our commitment to a full-time, professional police department, adequate lighting, CCTV, shuttle services, emergency telephones, and ongoing educational safety awareness programs. The vast majority of crimes occurring on college campuses are crimes of opportunity that can be prevented. You can help by taking away the opportunity. We have prepared these safety tips to help reduce the opportunity for you to become a victim of crime.

Always remember...

• Prepare yourself physically and mentally for any emergency. Be a resource, not a victim.
• If you have been personally threatened or if you have heard anyone at school mention the idea of committing acts of violence, take it seriously. Inform the University Police or other campus officials.
• Avoid working or studying alone in a campus building.
• Never leave your laptop computer, textbooks, cellular telephone, book bag, purse, or other valuables unattended or out of your sight in dining areas, the library, common study areas, or outdoor spaces.
• While working, do not leave purses, cellular telephones, or other valuables unattended under desks or in unlocked offices. Place valuables in a locked file cabinet or drawer.
• Avoid isolated corridors, hallways, stairwells, and restrooms.
• Identify your personal property by either labeling it with your name or registering it with the WUPD. When using athletic facilities, always secure your property in a locker with a good lock. Never leave your property unattended in hallways or common areas. See page 12.

Residential Security

You can take several important steps to help protect yourself and your personal property:

• You can take several important steps to help protect yourself and your personal property:
• Close your door when you are not in your room or suite.
• Lock your door. Utilize your peep holes.
• Lock your windows. If applicable, secure sliding glass doors.
• Never prop exterior doors. If you see a door propped, close it.
• Don’t allow people you do not know to “tailgate” behind you into the building! Every person who is authorized to be in your building should have either card access or a key. Politely tell them that you cannot allow them in and that they should go to the Office of Residential Life to gain access. If someone follows you anyway, call the WUPD.
• Never loan your access card or keys to anyone. If you misplace your identification/access card, report the loss to the WUPD immediately.
• Record the serial numbers of valuable personal property or register your items online at www.police.wustl.edu. The WUPD offers a handy inventory card to help you record this vital information. Give the card to your family and ask them to store the information in a safe location. The WUPD also has available an electric engraver that you may use to engrave your license number or other identifying marks on your valuables. (Do not use your Social Security number.)
• If you see a suspicious person or someone you don’t believe should be in or around the building, call the police immediately.

Additional Security Measures for Off-Campus Residents

• Be alert to your surroundings. If you suspect you are being followed, run in a different direction; go to the other side of the street, and yell or whistle for help; or head quickly to a lighted area, a group of people, or an Emergency Telephone.
• Lock your windows. If applicable, secure sliding glass doors.
• If your doors are not equipped with a deadbolt lock, ask your landlord to install one.
• Have a peep hole installed.
• Make sure your building has outside lighting. Report broken or burned-out lights to your landlord.
• Become acquainted with neighbors. Know who belongs in your building.
• Don’t put names on your answering machine or voicemail recorded greeting.
• When you are away from your residence, leave your interior lights on. Use a timer if you will be gone for more than one day.
• Don’t hide a spare key outside your door.
• If you see a suspicious person, notify the police by calling 911.
• If you arrive home to find your door ajar, hear unusual sounds, or believe your apartment has been broken into, DON’T GO IN! Call the police.

When someone knocks at your door

• Don’t open the door unless you know your visitor.
• If the person is a maintenance person, or University representative, ask for identification and credentials. Call the employer to verify the name and business and to confirm that maintenance work was scheduled to be performed. Refuse to deal with anyone who won’t comply with this request.

When you are away from your home for holidays/breaks

• Take valuable items with you or put them in a secure location.
• Discontinue your newspaper and other deliveries ahead of time. Do not leave notes that would indicate you are away.
• Notify the post office to hold or forward your mail.
• Check the WUPD website at www.police.wustl.edu to obtain a complete apartment security checklist.

Safety while Walking or Jogging

• Avoid walking or jogging alone, especially after dark.
• Always walk or jog in a familiar area.
• If you must travel alone at night, use the Campus Circulator. For more information, go to www.parking.wustl.edu.
• Tell someone where you are going and when you can be expected to return.
• Always choose a well-lit path, and avoid dark or vacant areas.
• Take note of the locations of Emergency Telephones along your route.
• Carry a whistle to summon help when you walk or run. The WUPD offers free whistles—just stop by our office on the South 40 to pick yours up!
• Carry a cellular telephone and use it if you feel uncomfortable.
• If you exercise outdoors on a regular basis, vary your route and schedule.
• Have your access card or keys ready when returning to your residence hall or apartment.
• Try not to overload yourself with packages or other items. Keep your hands as free as possible.
• Do not wear music headphones while walking or jogging.
• If you carry a purse, carry it close to your body, preferably in front. If it has a shoulder strap, be prepared to let it go if snatched.
• If you are confronted by a thief, give the thief what they want. Don’t pursue the thief. Try to get a detailed description and call the police immediately.
• Participate in the WUPD’s monthly Rape Aggression Defense (RAD) self-defense class. For more information, see page 13 of this brochure, or call (314) 935-6347, or visit our website at www.police.wustl.edu.

Bicycle Security
Most bicycles are easily stolen because they are not locked correctly or not locked at all. For example, a lightweight cable or a small, dog-collar-type chain can be easily pried open or cut. Proper use of a strong, reliable lock will make a difference!

• Always lock your bike to a fixed, immovable object like one of the many bicycle racks on campus. Park it in a visible and well-lit place.
• If a “U”-Lock is used, position the bicycle frame and wheels so that as much open space as possible within the U-portion of the lock is filled or taken up. This makes it more difficult for a thief to use tools to attack the lock. "Kryptonite" U-Locks are available for purchase through the WUPD at our office on the South 40.
• Register your bicycle with the WUPD to ensure there is a record of all the vital information: make, model, color, serial number, etc. Register online at www.police.wustl.edu.
• Accessories that can be removed easily, like quick-release wheels and seats, also should be secured with a lock.
• Don’t lock your bike to trees, handrails, lamp posts, aluminum or wooden posts, or fences.
• Don’t lock your bike to a disabled-accessible ramp.
• Don’t lock your bike to itself. If a thief wants your bike, it can easily be lifted up and carried away.

Laptop Security
Laptop computers have become one of the most popular targets for both the casual and experienced thief. Laptops are valuable, easy to resell on the open market, and most commonly stolen when left unattended in public areas. Here are a few common-sense practices that can go far in preventing your laptop from being stolen:

• Always keep it in sight! Avoid leaving your computer unattended in any public space.
• In your residence hall room, lock your laptop in a drawer when not in use or secure it to the desk top with a cable lock. Remember to always lock your door when you leave your room, even if it’s just for a short time.
• When at the library, take your laptop whenever you leave your work station.
• Lock doors to labs and office spaces whenever your laptop is left unattended. If possible, store the laptop in a locked file cabinet.
• If you nap in public spaces such as the library or on campus grounds, use your laptop as a pillow or place the strap over your shoulder.
• Back up critical files frequently. The cost of not doing this can be very high.

Contact the WUPD to have your computer marked with a STOP tag. This is a special tag for laptops that, if removed, leaves a tattoo displaying the text “Stolen Property: Call……” You can get more information at the WUPD website, www.police.wustl.edu.

Identity Theft and Fraud
Identity theft is one of the fastest-growing, and most profitable, crimes in the United States. Criminals may use your identity to open up a new credit card or bank account. Here are a few tips to help protect your personal information:

Never provide personal information (Social Security number, credit card number, address, etc.) to anyone unless you initiate the contact and are familiar with the business.

• Limit the amount of confidential or personal information you carry in your wallet or purse.
• Do not carry bank account numbers, personal identification numbers (PINs), passports, etc.
• Destroy—preferably shred—credit card applications you receive in the mail and don’t use.
• Review your credit card bills and your checking account statements as soon as they are received to ensure that no fraudulent activity has taken place.
• If you believe you have been the victim of identity theft, report the crime to police immediately.

Credit Card Security
The fraudulent use of credit cards is not limited to simply the loss or theft of actual credit cards. A thief only needs to know your credit card number to make fraudulent charges, including cash withdrawals, against your account. Here are a few tips to guard against the illegal use of credit cards:

• Carry only the minimum number of credit cards actually needed and never leave them unattended.
• Avoid signing a blank receipt whenever possible. Draw a line through blank spaces above the total when you sign card receipts.
• Never leave receipts at banks, ATMs, gas pumps, and checkouts. Shred all receipts before disposing of them.

• Unless you initiate the purchase, never give your credit card account number over the telephone or online.

• If you receive a letter stating that you should have received a credit card in the mail and you have not received the card, notify the company or lending institution immediately.

• In the event your card is lost or stolen, immediately notify the credit card company. Most fraudulent purchases are made a short time after the theft. Most issuing banks or companies can be reached 24 hours a day, 365 days a year.

**ATM Safety**

• When approaching the ATM, be alert for anything suspicious, especially someone who appears to be “hanging around” the area, or two or more people in a nearby vehicle, particularly if no one else is at the ATM.

• If at all possible, avoid using ATMs at night. If you must use one at night, select one that is well-lit and is not in a secluded, low-visibility area. Particularly after dark, take a companion along, and park close to the ATM, if at all possible.

• At a drive-up ATM, keep all windows closed, except the one you are using, and all vehicle doors locked. Keep the vehicle running and be watchful of the vehicle’s front, rear, and sides. If someone approaches your vehicle on foot, cancel the transaction and leave.

• Before you approach the ATM, have your card ready, know your code, and, if anything such as a deposit slip needs to be filled out, have it completed.

• Protect your personal identification number (PIN). Memorize your PIN, and do not write it on your ATM card.

• When you are using the ATM and someone is closer to you than you would like, cancel your transaction and go to a safe location until that person leaves.

• When your ATM transaction is completed, take your property and put it in your pocket, wallet, or purse, and leave immediately. Never stand and count your money. Always have your head up and be aware of your surroundings when you leave the ATM. If you feel or sense that someone is following you, call the police.

**Vehicle Theft Prevention**

Do not leave expensive property such as iPods, laptops, cellular phones, CDs, purses, GPS devices, and radar detectors in plain view in your vehicle. Lock them in your trunk, or take them into your residence.

• Lock your vehicle and secure the keys.

• Don’t leave the keys in the ignition or in your vehicle.

• Whenever possible, park in well-lit and busy areas.

• Never hide a second set of keys in the vehicle. Extra keys can easily be found if the thief takes time to look.

• On cold mornings, never leave your motor vehicle unattended while running it to warm it up.

• Periodically check your license plates to make sure they haven’t been stolen or the renewal tag removed.

• For added motor vehicle security, the WUPD offers “The Club” at a significantly discounted rate. Contact the WUPD for information on The Club purchase program or visit the police website at www.police.wustl.edu.

**Vehicle Safety while Driving**

Carry your car keys when approaching your vehicle so you can enter quickly. If you see someone loitering near your car, don’t stop; walk to an area where there are other people. If you use a keyless entry remote, do not unlock your doors until you can see your vehicle.

• Try not to walk close to other parked vehicles and stay in the center of the access way. Try to walk against the direction of traffic.

• Travel and park on well-lit streets.

• Keep your doors locked and windows closed.

• Always carry your cellular phone.

• Keep packages, purse, etc., in the trunk or out of view.

• When stopping in traffic, leave enough distance between your vehicle and the one in front of you so you can pull away quickly if necessary.

• If involved in an accident, call the police.

• Be extra cautious if someone approaches your car.

• When returning home at night, call ahead and ask someone to watch for you while you walk from your car to your residence.

• Be aware of your surroundings before you get out of your vehicle. Have your whistle handy to summon help if necessary.

• If you are confronted by someone or pulled from your vehicle while you are stopped, cooperate and move away quickly.
Campus Security and Crime Prevention
Programs and Resources

The WUPD and Protective Services personnel facilitate crime prevention programs on personal safety and theft prevention, often in cooperation with other campus departments or organizations, throughout the year. In addition to programs offered to students and parents during Orientation and Move-In, the WUPD and/or Protective Services provide training and educational programs to students, faculty, and staff, including but not limited to Campus Life, Residential Life, Resident Advisors, and Greek Life Housing Managers, periodically throughout the year on a variety of safety and security topics, including personal safety, residence hall security, sexual assault, theft, and other crimes. Employees are also advised of the services offered and the importance of personal safety awareness during Human Resource’s New Employee Orientation. A common theme of all awareness and crime prevention programs is to encourage students and employees to be aware of their responsibility for their own personal security and the security of others, both on and off campus.

In addition to seminars and training programs, the WUPD and Protective Services distribute pamphlets, posters, brochures, and video training (police.wustl.edu/safetyvid.htm) on topics concerning crime prevention, which may include general crime awareness, sexual assault precautions, bicycle safety and security, and Operation ID to students and employees.

The WUPD or Protective Services officers are available, by prior arrangement, to speak to student, faculty, and staff groups and organizations. For further information, contact the WUPD at (314) 935-5084 or visit the WUPD website at www.police.wustl.edu on the Danforth Campus. On the Medical Campus, contact Protective Services at (314) 362-4357 or visit the Protective Services website at wusmprotectiveservices.wustl.edu.

The WUPD and/or Protective Services also directs you to the following programs, which may assist you in protecting your property and personal safety:

Property Registration and Identification
Washington University offers online property registration to faculty, staff, and students. To register items of personal property, the item must have a serial number. This information will remain on file for five years and is free of charge. Go to www.police.wustl.edu to register property or to obtain additional information.

WUPD offers inscribing devices at the Police Department that allow you to etch identifiers on your valuables (do not use your Social Security Number).

Bicycle Locks and Registration
The WUPD offers high-quality “Kryptonite” bicycle locks for $20. These “U” bolt locks are among the best for securing your bicycle. “U” bolt locks are also available on the Medical Campus at the WUSM Transportation/Protective Services Customer Service Center in the 660 S. Euclid Lobby (Mon. - Fri., 9:00 a.m. - 3:00 p.m.).

You also can register your bicycle free of charge by visiting the WUPD in person, or at our website, www.police.wustl.edu.

Computer Security
With the application of STOP tags, the WUPD offers a simple, low-cost solution to help prevent the theft of your computer or other valuable items. For a fee of $10, a security plate is sealed to your computer case (requiring up to 800 pounds of pressure to remove). The plate bears a unique ID number, a message, and an 800 number to call for ownership verification. Under the plate a permanent tattoo also bearing the toll-free number is chemically etched into the equipment. The combination of the security plate and the tattoo acts to deter theft. Contact WUPD at (314) 935-5555 to schedule an appointment.

The Club
For added motor vehicle security, the WUPD offers The Club at a significantly discounted rate of $10. Highly visible, this strong visual deterrent alerts a potential thief that your car is protected. Virtually impossible to defeat—time and effort are a thief’s enemies. New and improved solid steel hooks provide even greater security. Vinyl coated—helps protect your steering wheel and your vehicle’s interior. Contact the WUPD Crime Prevention Office at (314) 935-5084 for information.

Clubs are also available on the Medical Campus at the WUSM Transportation/Protective Services Customer Service Center in the 660 S. Euclid Lobby (Mon. - Fri., 9:00 a.m. - 3:00 p.m.).

Blue Light Emergency Telephones and Intercoms
Blue Light Emergency Telephones are available at more than 200 locations, including the Danforth Campus, the South 40 residential area, off-campus residential property, Medical Campus, West Campus, North Campus, and some other areas frequented by students. They are easily recognizable at night by the bright blue light mounted above the telephone. When activated, a connection is made directly to a dispatcher. The dispatcher knows the exact location of the telephone and can send help immediately, even if the caller is unable to speak. These telephones may be used any time assistance is needed from the Police Department. Blue Light Emergency Telephones located off campus are directly linked with that local law enforcement office.

On the Medical Campus, two-way intercom systems have been installed at several card access entrances to campus buildings and may be used to communicate directly to the on-duty Communications Officer.
Rape Aggression Defense Systems (R.A.D.) Classes for Women and Men

Rape Aggression Defense Systems is a premier self-defense program taught in over 40 states and Canada. The R.A.D. System comprises easy-to-learn, effective physical defense techniques. Women’s classes are offered monthly and men’s classes are available upon request. This is a dynamic, hands-on, 12-hour program and is designed for the average woman, though offered to both men and women. It begins with risk reduction, avoidance, and prevention. Basic techniques are taught by certified instructors.

Currently, there are no fees for the class or class materials. Plus, there is a free lifetime return and practice policy. Classes are limited to 20 people. They consist of four 3-hour sessions. You must attend all sessions to complete the course. Modest dress is required. Shoes must have good support for lateral movement (no jogging shoes). For more information, contact the R.A.D. coordinator:

Sgt. Mark Glenn, WUPD
(314) 935-5084

Whistles

We offer free metal whistles with the “WU” insignia that can be attached to a key ring. The blast of the whistle, a universal signal of distress, should attract attention during an emergency. Here’s how it’s used:

- When in need of aid, blow the whistle.
- Anyone who hears the whistle should immediately call the WUPD at (314) 935-5555 or use the nearest emergency telephone.
- Remember: The whistle is not considered a toy and should only be used in an emergency.
Medical Campus students and personnel should contact Protective Services at (314) 362-HELP (4357).

Parking or WUPD/Protective Services personnel will be dispatched to assist with a dead battery or lockout. Vehicle operators will be requested to sign a Waiver of Liability form and produce identification to show they are authorized to have access to the vehicle. In the event Parking or WUPD/Protective Services personnel cannot assist with the problem, the motorist will be provided information on other services available in the area.

For more information about these and other crime prevention programs offered by the WUPD or Protective Services, call:

WUPD Crime Prevention Office (314) 935-5084
WUSM Protective Services (314) 362-HELP (4357)
Visit our websites: www.police.wustl.edu or wusmproserv.wustl.edu.

Overseas Travel Advisories

The WUPD has a service available for members of the campus community looking for safety travel advisories as they plan overseas trips. The WUPD is a subscriber to the U.S. State Department’s Electronic Data Base (EDB), which provides current and authoritative information about overseas security conditions.

Among the categories of information available from the EDB:

- Department of State overseas travel advisories listed by country
- Reports on security and crime incidents listed by country
- Updates on new or unusual situations overseas
- Addresses and telephone numbers of U.S. diplomatic and consular posts overseas
- Police emergency telephone numbers listed by country
- General crime information on foreign cities and countries

Members of the campus community who would like to request information about a locality prior to traveling may contact the WUPD. Information about traveling abroad can also be found online at www.ds-osac.org. For further information, contact:

Wendy Oloteo ............................................. (314) 935-7698
wendy_oloteo@wustl.edu

Homeland Security

The WUPD posts information on its website regarding security alerts issued by the Department of Homeland Security. Please see our website at www.police.wustl.edu.

It is important that all members of our community play a role in protecting our campus. We encourage members of the community to make note of unusual or suspicious behavior/circumstances and report observations to police in a timely manner.

General Precautions

- Wherever you are, be aware of your surroundings.
- Take precautions when traveling. Be aware of conspicuous or unusual behavior. Do not accept packages from strangers. Do not leave bags or luggage unattended. Unusual behavior, suspicious packages, and strange devices should be promptly reported to police or other security personnel.
- Do not be afraid to move or leave an area if you feel uncomfortable or something does not seem right.
- Learn where emergency exits are located in buildings you frequent. Notice where exits are when you enter unfamiliar buildings. Plan how to get out of a building, congested public area, or traffic.

The following lists include things the campus community should be attentive to and report to the WUPD at (314) 935-5555.

Suspicious Behavior/Circumstances

- People in buildings or other areas who do not appear to be conducting legitimate business.
- People monitoring or photographing areas, buildings, or entrances.
- Unauthorized persons in restricted, sensitive, or private areas.
- People requesting information with no apparent need for that information.
- People wearing clothing not consistent with the weather conditions at events with large populations (e.g., a bulky coat in warm weather).
- Abandoned parcels or other items in unusual locations or high traffic areas.
- Individuals attempting to access utility locations such as power, telecommunications, information systems, etc.

Be alert to

- Abandoned vehicles.
- Unexpected or unfamiliar delivery trucks.
- Unfamiliar vehicles parked for long periods.
- Vehicles containing unusual/suspicious parcels or materials.
- Vehicles arriving or being left behind at odd hours.
- Substances leaking or spilling from vehicles.
- Building/Office Security.
- Lock your door whenever you leave—even if it’s for a short time.
- Account for and secure keys. Don’t leave them
Reporting a Crime

Community involvement is the key to any quality, community-oriented policing program. The prompt, informative, and responsible reporting of criminal incidents and suspicious activity to the WUPD or Protective Services by community members is essential to a timely, effective, and efficient response.

If you are the victim of a crime or a witness to one, you should do the following:

1. Call police immediately.
   If on the Danforth Campus, dial (314) 935-5555.
   If on the Medical Campus, dial (314) 362-HELP (4357). You may also use any of the emergency telephones or intercoms to contact the WUPD or Protective Services Department. For all other locations dial 911 for municipal police.

2. Obtain description.
   Attempt to obtain a description of the offender(s), including gender, age, race, hair, clothing, and distinguishing features. Also attempt to obtain a description and license number of any vehicle(s) involved. Note the direction of travel of any offender(s) or vehicle(s), and report these to the police.

3. Preserve the crime scene.
   Do not touch any items involved in the incident. Close off the area of the incident, and do not allow anyone in the crime area until police arrive.

4. Consider counseling.
   Consider contacting the Habif Health & Wellness Center at (314) 935-6666. The Student Health Services may be able to help you manage the experience of being a crime victim or witness.

In addition to the WUPD or Protective Services, you may report a crime to the following individuals or their designees:

- Director of Judicial Programs ................. (314) 935-4174
- Associate Vice Chancellor and Dean of Students ......................... (314) 935-5050
- Associate Vice Chancellor and Dean of Campus Life .................... (314) 935-5022
- Associate Vice Chancellor and Director of First Year Center ........... (314) 935-5040
- Human Resources (Danforth Campus) ..................................... (314) 935-7746
- Human Resources (Medical Campus) ........................................ (314) 362-7196
- Director of Housing at the Medical Campus ............................. (314) 362-3230
- Associate Dean for Student Affairs at WU School of Medicine .......... (314) 362-6843
- Assistant Director for Sexual Assault and Community Health Services .................. (314) 935-8761

Confidential and Anonymous Reporting

While the University urges the campus community to contact the WUPD or Protective Services, an individual may wish to submit a confidential report or remain, at times, anonymous and separate from the University’s judicial or law enforcement process. If you are the victim of or witness to a crime and do not want to file a report directly with WUPD or Protective Services, you may still want to consider making a confidential or anonymous report through the Silent Witness program, available at www.police.wustl.edu. The program uses an encrypted server to maintain anonymity.

To submit a confidential report on the Medical Campus for a crime that has already been committed, you may call the “Campus Watch Hotline” at (314) 362-0381 to leave a recorded voice message.

While the University may be limited in its ability to respond to such confidential and/or anonymous reports submitted to WUPD or Protective Services in this manner, the incidents and crimes reported are included in the University’s disclosure of its annual crime statistics if applicable.

The University also encourages professional or pastoral
counselors to provide victims and witnesses the above information on reporting crimes on a voluntary, confidential basis to WUPD or Protective Services, if and when the counselor deems it appropriate, for inclusion in the University's annual disclosure of crime statistics.

Reporting Suspicious Person(s) or Activity
If you see any suspicious activity or person(s) on or near the University's Danforth Campus, immediately call the WUPD at (314) 935-5555 or from any Blue Light Emergency Telephone to report what you have seen. If you see any suspicious activity or person(s) on or near the University’s Medical Campus, immediately call the Protective Services Department at (314) 362-HELP (4357) or from any Emergency Telephone or Intercom to report what you have seen. Do not assume that what you see is innocent activity or that another individual has already reported it to the police. Do not worry about being embarrassed: rather, think about what could happen if you do not act.

Call police if you observe someone exhibiting any of the following examples of behavior
- Persons loitering around offices, classrooms, laboratories, etc. who do not appear to be going anywhere specific
- Persons in the parking area, loitering at or near vehicles, who do not appear to be walking toward any particular vehicle or building
- Persons looking into office areas, storage rooms, or student areas, or persons going room to room trying doorknobs
- Persons who open your dorm room door without knocking, then leave when they see it’s occupied
- Persons loitering at unusual hours or locations
- Persons running from or in a building or carrying property that seems suspicious
- Persons loitering in parking lots, garages, or stairwells

What are suspicious vehicles?
- Vehicles that are slowly moving through parking areas that have vacant parking spaces
- Vehicles occupied by one or more persons that are parked in outlying parking areas away from the buildings or streets
- Vehicles that are parked near buildings after campus buildings are closed

What are other suspicious situations?
- Open or broken doors or windows
- Persons who attempt to hide their face from view
- Persons exhibiting unusual mental or physical symptoms
- Persons who appear to be having a difficult time or spend a long time unlocking a bicycle

Bomb Threats
If you receive or know of a bomb threat, immediately contact the WUPD at (314) 935-5555 or WUSM Protective Services at (314) 362-HELP (4357). Notify your supervisor, department head, or Resident Advisor, and wait for further instructions. If the threat was by telephone, write down as much information about the call as you can remember. The WUPD provides a Bomb Threat Checklist to assist in the collection of information on telephone threats. To obtain a copy, contact the Crime Prevention Office at (314) 935-5084.

Sex Crimes
If you are a sex crime victim, report it to the police immediately. Preserve the physical evidence. Do not bathe, douche, use the toilet, or change clothing. If you are the victim of a rape or other sex crime, you should seek medical treatment immediately, regardless of whether you report the matter to the police. (See Sexual Assault and Other Sex Crimes on page 33.) Exposing one’s self is a crime in Missouri. If you observe someone doing this on the Danforth Campus, contact the WUPD at (314) 935-5555. If you observe someone doing this on the Medical Campus, contact Protective Services at (314) 362-HELP (4357). If off campus, call the municipal police. (See Resources on page 39.)

Harassling Communications
- Hang up if the caller says nothing, utters an obscenity, or fails to identify him- or herself clearly.
- If harassing communications persist or are threatening, call the WUPD at (314) 935-5555 or Protective Services at (314) 362-HELP (4357).
- If the harassment is received off campus, contact your local police department or your phone company. Your phone company has options such as Call Tracing, Caller I.D., and Call Blocker; there is a usage fee for these services.

What should you do if you believe you are being stalked?
- Tell the stalker to leave you alone clearly and firmly and then end all communication. Never negotiate with your stalker.
- Keep a log of incidents with the date and time.
- Save any letter, emails, packages, and gifts.
- Keep all addresses confidential, including your local address or residence hall, as well as your permanent address.
- Screen all calls with a caller ID and answering machine. Program your phone to refuse unidentified callers. Save messages, including voicemail and text messages.
• Identify safe locations for emergencies.

• Report the incidents to the police, even if you are unsure about prosecution.

• Inform your RA, Residential College/Community Director (RCD), family members, and/or trusted friends that you are being stalked. Provide them a photo of the stalker if you have one.

• Contact WUPD to obtain details and/or assistance with obtaining an Order of Protection.

Timely Warnings

The Washington University Police Department ("WUPD") and, depending on the location of the crime, the Washington University School of Medicine Protective Services Department ("Protective Services") are responsible for issuing timely warnings in compliance with the Jeanne Clery Act, 20 U.S.C. 1092(f) et seq.

The decision to issue a timely warning will be made on a case-by-case basis after consideration of the available facts. Factors that will be considered in determining whether an alert will be issued include: whether there is a serious ongoing or continuing threat to students or employees; whether an alert would compromise law enforcement efforts; and whether the University has reliable information that, if disseminated, could help prevent similar crimes.

A timely warning will be considered whenever a campus security authority receives a report that a crime in one of the following classifications has occurred on or near campus or when a local law enforcement agency notifies the University that a crime in one of these classifications has occurred near campus or off campus in an area proximate to University owned and managed student housing: criminal homicide, sex offenses, robbery, aggravated assault, burglary, motor vehicle theft and arson. Depending upon other circumstances, other crimes may also trigger the consideration of a timely warning.

Anyone with information that may warrant a timely warning should contact WUPD at (314) 935-5555 or Protective Services at (314) 362-HELP (4357).

Timely warnings will be issued to the campus community or, where appropriate, those members of the campus community residing in the area subject to the ongoing threat, through the University's email notification system, postings on the WUPD or Protective Services websites, physical postings on doors and bulletin boards, and/or other notification methods as deemed appropriate.

Lost and Found

Danforth Campus

The Danforth Campus Lost and Found is located at WUPD. All buildings and offices are encouraged to promptly forward any "found" items to the WUPD in order to maintain a central location for persons seeking lost property. A database of items reported missing is kept and cross-checked with items turned in. You may access this database at www.police.wustl.edu. Owners identified will be notified promptly and arrangements made to return the property. Any unidentifiable or unclaimed property will be held for 45 days and then disposed of or donated to charity.

Inquiries can be made Tuesday through Friday during normal business hours.

Items may be sent to Campus Box 1038.

Lost and Found ........................................www.police.wustl.edu.

Medical Campus

The Medical Campus Lost and Found is located at the Department of Protective Services. All buildings and offices are encouraged to promptly forward any "found" items to Protective Services in order to maintain a central location for persons seeking lost property. Owners identified will be notified promptly and arrangements made to return the property. Any unidentifiable or unclaimed property will be held for 60 days and then disposed of or donated to charity.

Property Registration and Identification

Washington University offers online property registration to faculty, staff, and students. To register items of personal property, the item must have a serial number. This information will remain on file for five years. Go to www.police.wustl.edu to register property.

We also offer inscribing devices at the police department, which allows you to etch identifiers on your valuables (do not use your Social Security Number).
Medical Emergencies

Steps to Take in a Medical Emergency
1. Do not move the patient unless his or her life is in danger in the existing location.
2. Have someone stay with the patient until help arrives.
3. If on the Danforth Campus or South 40, call WUPD at (314) 935-5555. If at the Medical School, call Protective Services at (314) 362-HELP (4357). For all other locations dial 911. Tell them your name, your exact location, and a brief description of the problem. Do not hang up until told to do so.
4. If possible, have someone meet emergency personnel to guide them to the patient.

Medical Illness and Injuries
(STUDENTS)
The Habif Health and Wellness Center is open Monday through Friday for student medical care. After-hours services may be obtained by calling (314) 935-6666.

Daily office visits are available during the fall and spring semesters, Monday, Tuesday, and Thursday 8 a.m. to 6 p.m., Wednesday 10 a.m. to 6 p.m., and Friday 8 a.m. to 5 p.m., on a walk-in or scheduled basis. Saturday hours are available from 9 a.m. to 1 p.m. for walk-in care during the academic year. A clinician is available during these times. Various specialists are available at Student Health Services by appointment.

Habif Health and Wellness Center..................... (314) 935-6666
website: .......................................................... shs.wustl.edu

In an emergency, on campus dial (314) 935-5555 or off campus, dial 911.

The Student Health Service on the Medical Campus provides on-site medical, mental health, and health promotion services to medical campus students. The Student Health Service office is located on the 3rd Floor of the East Building, 4525 Scott Avenue, Suite #3420. Their hours are 8:00 a.m - 4:00 p.m., Monday through Friday. The contact numbers are: Phone: (314) 362-3523, Fax: (314) 362-0058, Internet: wusmhealth.wustl.edu.

Medical Illness and Injuries
(FACULTY and STAFF)

Life Threatening
• If on the Danforth Campus or South 40, call WUPD at (314) 935-5555. If at the Medical School, call Protective Services at (314) 362-HELP (4357). For all other locations dial 911 immediately for transportation to the Barnes-Jewish Hospital (BJH) Emergency Room, 400 N. Kingshighway.

• Send the completed “Report of Injury or Illness” form to the Washington University Worker’s Compensation office at Campus Box 1084. For a copy of the form, go to the Human Resources website or call (314) 935-5547.

Non-Life Threatening
• If on the Danforth Campus or South 40, call WUPD at (314) 935-5555 or if at the Medical School, call Protective Services at (314) 362-HELP (4357) to arrange for transportation to BarnesCare. If after-hours (between 4:30 p.m. and 8:00 a.m.), you will need to be transported to the BJH Emergency Room.

• Call the Worker’s Compensation office at (314) 935-5547 for authorization to treat the employee at BarnesCare and to request a “Report of Injury or Illness” form.

• Send the completed “Report of Injury or Illness” form with the injured/ill employee to BarnesCare.

Emergency Support Team
The Washington University Emergency Support Team (EST) is a volunteer student organization that provides 24-hour emergency medical care to the Danforth Campus. Half of the members are licensed Emergency Medical Technicians (EMTs), and the other half are certified in standard first aid. EST additionally offers classes in CPR and first aid, provides first aid for special campus events, and co-sponsors an EMT class each spring.

For additional resources, members of the Interfaith Campus Ministries Association are available to talk with students. Contact Jill Carnaghi at (314) 935-5022 for further information.
Emergency Preparedness

Notification Procedures

All students, staff, and faculty are encouraged to immediately report any emergency or dangerous situation affecting the campus to the Washington University Police Department, Washington University School of Medicine Protective Services Department, or other University departments in sentinel roles (Student Health Services, Facilities, Environmental Health and Safety (EH&S), Residential Life, Greek Life and Student Affairs on the Danforth and Medical Campuses).

Department personnel will either confirm the emergency directly or, without delay, contact University personnel with appropriate expertise to confirm the emergency situation.

If University personnel confirm the existence of an emergency or dangerous situation that is an immediate threat to the health and safety of the campus community, they will immediately report that situation to University officials who are authorized to initiate emergency notifications (unless the person confirming the situation is so authorized).

The University will, without delay, and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

University officials authorized to issue emergency notifications will make an effort to consult with one or more of their counterparts regarding the content and audience of emergency notifications. However, in exigent circumstances, any one of the authorized individuals may determine the content of the notification and the segment of the campus community that should receive notification. Where time permits, the authorized University officials may consult with members of the University’s Crisis Management Team (CMT) regarding the content and target audience of an emergency notification.

University officials authorized to initiate campus-wide emergency notifications include the following:

- The Chancellor
- The University Chief of Police
- The Director of Protective Services at the School of Medicine
- The Associate Vice Chancellor for Operations
- The Special Assistant to the Chancellor
- The Emergency Management Coordinator
- The Associate Vice Chancellor of Public Affairs
- The Assistant Vice Chancellor of EH&S

During an emergency or crisis, the University’s Office of Public Affairs, through its Vice Chancellor and Associate Vice Chancellors, works with the CMT to create messages on behalf of the University and to distribute information and messages to the designated segments of the campus community as quickly as possible. In the event of a campus-wide emergency, these individuals will work to distribute information and messages as widely as possible through traditional news media and social media channels to reach internal and external audiences.

The University uses the Emergency Email Broadcast System (EEBS) to distribute email notifications of an emergency. EEBS is capable of sending email to all members of the University community with a WUSTL.edu address. Emergency notifications can also be sent through the WU Emergency Notification System (ENS), called WUSTLAlerts, which is capable of sending out notifications via multiple modes such as: voice messaging to cellular, work and home phones, text message to cellular and paging devices, email messages, conference call bridges, and fax.

Emergency.wustl.edu serves as the main web-based information source for both general and incident-specific emergency information. In the event of an emergency affecting the campus community, Emergency.wustl.edu will be updated regularly by the Office of Public Affairs to provide incident-specific emergency information. Additionally, the University provides incident-specific emergency information through various forms of social media such as Facebook and Twitter.

Finally, the University maintains a system of emergency warning sirens around the Danforth Campus that may be triggered in the event of a campus emergency or dangerous situation that is an immediate threat to the health and safety of the campus community.

The University conducts many tests and drills each year in connection with its emergency response and evacuation procedures. Information pertaining to each of the tests and drills performed during 2011 can be found at Appendix B.
Outdoor Warning Sirens
Washington University in St. Louis has added three outdoor warning sirens on the Danforth Campus that are used to alert our campus community about severe weather and tornado warnings. They can also be used to convey emergency information for other crises. The sirens are tested monthly. These tests take place on the first Monday of each month in conjunction with St. Louis County’s outdoor warning siren test at 11 a.m. The tests will last approximately three minutes, weather permitting.

Here’s what you need to know to prepare for an emergency

Family preparedness: You will be much more effective in responding to an emergency that takes place at Washington University if you know your family and loved ones are safe. For tips on how to prepare your family for an emergency, go to the following website: www.dhss.mo.gov/Ready_in_3.

Emergency messages: Washington University has established a service (WUSTL Alerts) for sending emergency messages in text and voice formats to cellular phones, email addresses, and traditional phones. If you have not already done so, update your information at emergency.wustl.edu

Keep your information current: Washington University can only get emergency information to you if the University knows how to reach you. Confirm that your contact information is correct, including home phone number, cell phone number, campus address, and who to contact if you are ever injured

Faculty & staff: Confirm your information on HRMS at hr.wustl.edu

Students: Confirm your information on SIS at aisweb.wustl.edu/studentrecords/home.nsf

Emergency Notification System: The University has established a mass notification system to communicate critical information to the campus community in a time of urgency. The Emergency E-mail Broadcast System (EEBS) is the result of a collaborative effort by the University’s various email system managers to create an efficient means of transmitting email messages to the entire campus.

Preparing well in advance of emergencies is one of the most effective ways to deal with any disaster. Please review precautions, and take the steps recommended here.

Know “Where to Go” in an emergency
Washington University in St. Louis is committed to protecting the safety and security of our community. The following information will tell you where to go for information in an emergency, where to go on campus, how to report an emergency, how to respond when an emergency occurs, and how to prepare for an emergency.

Emergencies or disasters can happen at any time and usually occur without warning. When an emergency strikes at Washington University, our safe and prompt recovery will depend on existing levels of preparedness and a thoughtful response among students, faculty, staff, and visitors.

Where to go for information when a crisis occurs
You will have multiple ways to obtain information about the status of a crisis, should one take place at Washington University.

Website: Visit the University’s website, emergency.wustl.edu. New information will be posted to the site continuously. If there is no current emergency, the site will say so.

Hotline: You can listen to frequently updated voice messages by calling the University hotline: (314) 935-9000 (5-9000 from a campus phone), or 888-234-2863 (out of area)

E-mail: Check your email for updated information.

Where to go when a crisis occurs
Buildings on all campuses of Washington University have Emergency Assembly Points, which will be marked with the “Where to go” symbol. Look for the one closest to you. To preview the location of Emergency Assembly Points, visit emergency.wustl.edu, or see Appendix A.

How to report an emergency
If you witness an emergency situation, to get help and report the emergency to the Washington University Police Department (WUPD) or Protective Services on the Medical Campus, please call

Danforth Campus: WUPD, (314) 935-5555
North Campus, South Campus, West Campus, or Tyson Research Center: 911, then WUPD, (314) 935-5555
Medical Campus: Protective Services, (314) 362-HELP (4357)
Off Campus: 911, then WUPD, (314) 935-5555
How to respond to specific emergencies

Fire Safety

Preparing for emergencies well in advance is one of the most effective ways to deal with potential disasters. Review the following precautions and prepare to take the steps recommended.

Steps to Follow if You See a Fire

1. Manually activate the fire alarm system (pull station).
2. Call appropriate emergency number to report a fire. If on the Danforth Campus or South 40, call WUPD at (314) 935-5555. If at the Medical School, call Protective Services at (314) 362-HELP (4357). For all other locations, dial 911.
3. Immediately exit the building and, if not in immediate danger, close doors behind you.
4. DO NOT use elevators.
5. Gather outside at the designated Emergency Assembly Point (EAP) and do not attempt to re-enter the building until instructed to do so by firefighters or University public safety staff.

Steps to Follow if a Fire Alarm is Activated

1. Walk to the nearest exit.
2. DO NOT use elevators.
3. Assist persons with special needs.
4. Notify firefighters or University public safety staff if there is someone trapped inside the building.
5. Gather outside at the designated Emergency Assembly Point (EAP) and do not attempt to re-enter the building until instructed to do so by firefighters or University public safety staff.

Steps to Follow if You Are Trapped in a Fire

1. Remain calm.
2. Before opening a door, feel it with the back of your hand. If it is hot:
   a. Do not open the door.
   b. Open the windows. If possible, lower the top half of the window to let out heat and smoke, and raise the lower half to let in fresh air.
   c. Seal cracks around the door with towels, linens, or clothes. Soak these items in water if possible.
   d. To attract attention, hang objects out the window. Shout for help. If you have access to a phone, call the appropriate emergency number.
   e. Keep low to the ground with your head six to eight inches off the floor. Take short breaths to avoid inhaling smoke. Place a wet towel over your nose and mouth.
3. If the door is not hot, brace yourself against the door and open it slowly. If hot air or fire rushes in, close the door and refer to step 2a.
4. If you can leave, close all doors behind you and proceed to the nearest safe exit. Go to your assembly area and stay there until you are told to return to your building by someone in charge.

Steps to Follow for Fire Prevention

1. Know every regular and emergency exit from the building you are in. Know how to activate the alarm system and what it sounds like. Know the location of fire extinguishers and how to operate them.
2. Arrange the contents of your room with fire safety in mind. Maintain clear and unobstructed access to your room door, from both the inside and outside.
3. Do not overload electrical outlets. Do not use broken, frayed, or cracked electrical cords. Do not suspend lamps or lights by their own cords. Follow all safety precautions when utilizing power strips and extension cords.
4. Smoking is prohibited in all University buildings and on campus.
5. Contact the Environmental Health and Safety Office for proper safety procedures for storing flammable materials in your area.
6. False activation of fire alarms or fire extinguishers creates a substantial safety hazard, and may result in a referral to the appropriate authorities.

Using a fire extinguisher for small fires

P ull safety pin from handle.
A im at base of fire.
S queeze the trigger handle.
S weep from side to side at base of fire.

For further information, contact

Environmental Health and Safety Office, Occupational Safety Division......................(314) 362-6816
University Emergency Management Coordinator .........................(314) 935-9261
University Safety Officer .........................(314) 362-6816

The Occupational Safety Division and the Emergency Management Office acts as a resource to provide assistance, advice, or training concerning occupational safety and health issues. Areas included are fire safety, hazard abatement, risk management, natural disaster planning, and accident investigation. The staff also provides assistance in the areas of ergonomics, lock-out tag-out, confined space, indoor air quality, and asbestos.
**Active Shooter**

Several recent and tragic shootings on school campuses have heightened concern about what steps to take if you are confronted with a similar situation. The Washington University Police Department and the Washington University School of Medicine Protective Services Department offer the following recommendations:

If you are involved in a situation where someone has entered the area and started shooting, the following actions are recommended:

1. Exit the building immediately.
2. Notify anyone you may encounter to exit the building immediately.
3. Report to the assembly area for the building you are in. This should be done only if it is reasonably safe to do so. Otherwise, it may be better to leave campus.
4. If on the Danforth Campus or South 40, call WUPD at (314) 935-5555. If at the Medical School, call Protective Services at (314) 362-HELP (4357). For all other locations, dial 911.
5. Give the Dispatcher the following information:
   a. Your name
   b. Location of the incident (be as specific as possible)
   c. Number of shooters (if known)
   d. Identification of shooter (if known)
   e. Number of persons who may be involved
   f. Your location

If you are directly involved and exiting the building is not possible, the following actions are recommended:

1. Go to the nearest room or office.
2. Close and lock the door.
3. Cover the door windows.
4. Keep quiet and act as if no one is in the room. Silence your cellular and electronic devices.
5. DO NOT answer the door.
6. If on the Danforth Campus or South 40, call WUPD at (314) 935-5555. If at the Medical School, call Protective Services at (314) 362-HELP (4357). For all other locations, dial 911.
7. Give the Dispatcher the following information:
   a. Your name
   b. Your location (be as specific as possible)
   c. Number of shooters (if known)
   d. Identification of shooter (if known)
   e. Number of persons who may be involved
8. Wait for Washington University Police to assist you out of the building.

**Natural Disasters**

**Tornadoes**

**Before a Tornado**

The Midwest is prone to violent weather. Broadcast radio, television, and Internet weather sites issue severe weather alerts.

- Familiarize yourself with the most favorable areas for shelter. Evacuate to the basement, an inside hallway, or an interior bathroom on the lowest level possible with a flashlight and radio.
- Familiarize yourself with your building’s evacuation plan.
- Be familiar with the weather service alert and outdoor warning siren system. There is a test of the sirens in the St. Louis area the first Monday of each month at 11 a.m. unless there is an actual threat of severe weather or tornado.
- Develop a calling tree with names, numbers, and locations. This tree should include at least one person from each floor or area in your department.
- Keep at least one flashlight with extra batteries on hand.
- Keep at least one battery-operated radio on each floor to use only in an emergency.

**During a Tornado**

- Evacuate to the basement, an inside hallway, or an interior bathroom on the lowest level possible with a flashlight and radio. Get under something sturdy and cover your head or assume a crouched position with arms over your head. Remain away from outside walls.
- Stay away from windows, particularly on the windward side, and avoid shelter in large rooms with large, unsupported roof spans.
- If outside in an automobile, do not try to outrace the tornado; drive at right angles away from the tornado’s path. If there isn’t time to evade the tornado or if you are on foot, take cover and lie flat in the nearest depression such as a ditch, culvert, excavation, or ravine.

**After a tornado**

- Help injured or trapped persons
- Turn on the radio, television, or go to the Internet (emergency.wustl.edu) to get the latest emergency information and instructions
- Use the telephone for emergency calls only.
- If you smell gas or chemical fumes, leave the building and gather outside at the designated Emergency Assembly Point (EAP) and do not attempt to re-enter the building until instructed to do so by firefighters or University public safety staff.
Earthquakes

Before an Earthquake
St. Louis lies in the New Madrid fault zone, the site of several large earthquakes in the early 1800s. Another large earthquake in the region could cause significant damage to the St. Louis area.

Prepare for an earthquake by taking a few minutes to identify possible hazards in your work area or residence such as:

- Top-heavy, free-standing items that could topple
- Heavy or breakable items on high shelves
- Heavy items hung on the wall or ceiling near the work area
- Be aware that all utilities (gas/electric/water) will probably be down as a result of a severe earthquake. Emergency services may be extremely limited for up to 72 hours.
- Choose one out-of-state friend or relative that family members can call to learn of your whereabouts and condition.
- Store or have access to emergency supplies (water; nonperishable, ready-to-eat food; first-aid kit; medicine; tools; portable radio; flashlight; fresh batteries; blankets; warm jacket; fire extinguisher) in a secure place at your residence and in your car.

During an Earthquake

If you are inside

- STAY PUT, but evacuate tunnels, mechanical rooms, laboratories, and indoor swimming pools.

- TAKE COVER under a sturdy piece of furniture. Stay away from glass, windows, and outside doors. If unable to move, cover your head and body with your arms, pillows, blankets, books, etc., to protect yourself from falling objects. Avoid high bookcases, mirrors, cabinets, or other furniture that might topple.

- HOLD ON until the shaking stops.

- NEVER take an elevator.

If you are outside

- Avoid trees, power lines, and other hazards.

- Move to an open area if possible.

- Drop to the ground until the shaking stops.

If you are in a vehicle

- Pull over and stop the car.

- Do not stop on overpasses, underpasses, or bridges.

- Stay in the vehicle until the shaking stops.

After an Earthquake

- Expect aftershocks. Each time one occurs, DROP, TAKE COVER, and HOLD ON.

- Check yourself and others in your area for injuries.

- Place all telephone receivers back on their hooks.

- Tune in to the radio, television, or the Internet (emergency.wustl.edu) to get news and instructions.

- If you smell gas or chemical fumes, leave the building and gather outside at the designated Emergency Assembly Point (EAP) and do not attempt to re-enter the building until instructed to do so by firefighters or University public safety staff.

- Telephone the out-of-state person you designated so that family members and friends can call him or her to learn about your whereabouts and condition.

- For several days after a severe earthquake, be prepared for aftershocks. Common after a large earthquake, aftershocks can cause additional damage to weakened structures.

Floods

Preparing for Flood

There are two types of flooding that can impact the University community:

Be aware of streams, drainage channels, ditches, and other areas known to flood. Flash floods can occur in these areas with or without such typical warnings as rain clouds or heavy rain.

Flooding can also occur due to a Fire Emergency. If your area is protected by an automatic sprinkler system, it can activate during a fire. In an automatic sprinkler system, a network of piping filled with water under pressure is installed behind the walls and in the ceilings, and individual sprinklers are placed along the piping to protect the areas beneath them. Because the water is in the piping, the fire sprinkler system is always “on call.” The activation of an automatic sprinkler system will cause flooding and water damage to areas beneath the sprinkler heads and possibly to floors/rooms below.

Evacuation Tips

Secure your area. If you have time, bring outdoor property inside. Move essential items to an upper floor or at least up off the floor.

Turn off utilities at the main switches or valves only if instructed to do so. Disconnect electrical appliances.

Do not touch electrical equipment if you are wet or standing in water.

Do not walk through moving water. Six inches or less of moving water can make you fall. If you have to walk in water, walk where the water is not moving. Use a stick to check the firmness and depth of the ground in front of you.

Driving Flood Facts

Do not drive into flooded areas, turn around! If floodwaters rise around your car, abandon the car and move to higher ground if you can do so safely. You and the vehicle can be quickly swept away.

Six inches of water will reach the bottom of most pas-
senger cars causing loss of control and possible stalling. Six to 12 inches of water will float many vehicles. Two feet of rushing water can carry away most vehicles including sport utility vehicles and pick-ups.

Hazardous Material Spills
For spills or incidents that require special training, procedures, or equipment that are beyond the abilities of personnel on site, take the following steps:

- Immediately notify affected personnel and evacuate the spill area.
- Pull the fire alarm if building evacuation is required.
- Close the door behind you to contain the spill.
- If the spill material is flammable, turn off ignition and heat sources.
- Avoid breathing vapors of the spilled material.
- Leave the local exhaust ventilation (fume hoods) on.
- Call the appropriate number to report the incident, or if there’s contamination or spill involving a radioactive substance, call Radiation Safety at 362-3476.

Give the operator the following information:

- Your name, telephone number, and location
- Time and type of incident
- Name and quantity of the material, if known
- Extent of injuries or damage, if any

Anyone who is contaminated by the spill should avoid contact with others as much as possible, remain in the vicinity, and give his/her name to emergency personnel. An effort to wash off contamination and to administer any required first aid should begin immediately. Do not attempt to contain or clean up spills unless you have been trained.

Flu Information
The University has set up a website to share Danforth and Medical campus preparations and provide information about what you should do to protect yourself and prevent the spread of influenza, and how you should respond if you develop symptoms of influenza. Please visit emergency.wustl.edu/wheretogo/epidemic.html for information.

Preparing for an Evacuation
All members of the WUSTL campus community need to prepare to respond to any emergency that involves evacuating a building. At the sound of an appropriate fire alarm, or if you are instructed to evacuate, leave your work area, proceed to the nearest exit, and leave the building immediately. There are five key steps to take to prepare for evacuations:

- Learn the location of emergency exits and the shortest route to the exit (check your building’s evacuation map) and a secondary evacuation route. When evacuating DO NOT USE ELEVATORS. In emergency situations, elevators may stop on floors with hazards such as fire or smoke. USE THE STAIRS.

- Learn the location of emergency alarm activation stations. They are red, box-like devices located on the wall near emergency exits.

- Learn the procedure for reporting emergencies. If you witness an emergency situation, to get help and report the emergency:
  - **Danforth Campus:** call WUPD, (314) 935-5555
  - **Medical Campus:** call Protective Services, (314) 362-HELP (4357)
  - **North Campus, South Campus, West Campus, or Tyson Research:** call 911, then WUPD, (314) 935-5555
  - **Off Campus:** call 911, then WUPD, (314) 935-5555

If the telephones in the building or your own cellular phone are not working, use any Blue Light Phone on campus. They are connected to the emergency communications center.

- Learn the sound of emergency alarm systems. Emergency alarms vary from building to building, but are designed to sound distinctly different from all other bells, buzzers, or signaling devices in the building. If you hear a constant ringing or buzzing you are unable to identify, report the situation to the appropriate emergency number for your location.

- Learn the location of fire extinguishers in the buildings in which you work, live, or visit.

Evacuating Individuals with Functional Needs
Special arrangements should be made for individuals who have a functional need that would hinder their evacuation from the building. The head of a unit in which a functional need person is employed is responsible for making necessary arrangements to provide assistance during an emergency. The functional need person’s designated “assistant” should find the person when the alarm sounds. WUPD or the Medical School Protective Services should be informed of people for whom special arrangements have been made. For more information, contact Campus Operations/Emergency Management.

About Building Emergency Preparedness Coordinators
Each building on campus should have one or more designated Emergency Preparedness Coordinators. This person(s), named by the administrator whose units occupy the majority of space in a building, serves as the
point of contact between the occupants of the building and Campus Operations/Emergency Management. Among other functions, Emergency Preparedness Coordinators are responsible for communicating with building occupants in the event of an emergency that will cause the shutdown of some or all of the building, and they can provide information about evacuation plans from their building.

**WUSTL Alerts**

**Students**

You are already registered to receive emails with important information in the event of a campus emergency. When you add your cell phone number to WebSTAC (SIS), you will automatically be signed-up for the emergency text message option. Follow the instructions below.

1. Log into WebSTAC (SIS)  
2. Click ‘Addresses’ under ‘Contact Information’ in the ‘Welcome to WebSTAC’ column on the left side of the website.  
3. Add your cell phone information you want contacted in an emergency to either ‘Home’ or ‘Local’ addresses.

In order to keep current in the Washington University Emergency Notification System (ENS), please be sure you keep your contact information updated in WebSTAC (SIS).

**Faculty and Staff**

You are already registered to receive emails with important information in the event of a campus emergency. When you add your cell phone number to the HR system you will automatically be signed-up for the emergency text message option. Follow the instructions below.

1. Log into HRMS  
2. Click on link ‘Employee Self Service’ to expand Menu, then Click on ‘Personal Information’  
3. Under the ‘Personal Information’ box, Click on ‘Personal Information Summary’  
4. In the ‘Phone Numbers’ section, click the ‘Change phone numbers’ box.  
5. There are now ten (10) different phone options. Please update all that are applicable, including your University, Personal or Other Cellular.  
   NOTE: If you enter an Alpha-Numeric pager, please be sure to include the @domain-name.  
6. Click the ‘Save’ box and then ‘Return to Personal Information’.  
7. If you have any problems, please call the Help Desk at (314) 935-5707.

In order to keep current in the Washington University ENS, please be sure you keep your contact information updated in HRMS.

**Parents, Family, and Others**

During an emergency that affects the Washington University community, there are various methods the University can use to communicate important information. WUSTL Alert messages can be sent via email, cell text and voice. Parents, family, and others may register to receive emergency information messages by visiting www.getrave.com/login/wustl.
Annual Fire Safety Report Compliance

Pursuant to the requirements of the Higher Education Opportunity Act, the University prepares and distributes the following annual fire safety report outlining fire safety practices, standards, and on-campus housing fire statistics.

1. Fire Safety Systems
A description of each on-campus student housing facility fire safety system on the Danforth Campus can be found in Appendix C, or on the Washington University Police Department website.
A description of the on-campus student housing facility fire safety system on the Medical Campus can be found in Appendix C, or by clicking on the link to Residence Hall Fire Safety on the Washington University School of Medicine Protective Services website.

2. Fire Drills
Danforth Campus
The University conducted two fire drills in 2011 for each on-campus residential housing facility.
Medical Campus
The University conducted four fire drills in 2011 for the on-campus residential housing facility located on the Medical Campus.

3. Residential Life Policies
Open Flames
Danforth Campus
Residential Life Policy dictates that open flames, including candles and incense, are not permitted in any Residential Life-managed buildings. If a student’s religion or faith requires candle burning for certain occasions/holidays, they are instructed to contact their Residential College/Community Director for special consideration.
Medical Campus
Open flames and candles are highly discouraged in the Olin Residence Hall on the Medical Campus.

Smoking
Smoking is not permitted on any Washington University campus.

4. Procedures for Student Housing Evacuation
In responding to emergencies involving a fire, see “How to Respond to Specific Emergencies – Fire Safety,” found on page 22.

Students who encounter a fire in a building should pull the closest fire alarm and evacuate the building to the designated Emergency Assembly Point (EAP). Emergency evacuation procedures are posted in every bedroom or suite. EAP locations are attached as Appendix A but may also be found on the University’s website at emergency.wustl.edu/resources.

5. Fire Safety Education and Training Programs
The University’s Emergency Management Office conducts comprehensive annual training pertaining to fire prevention, response, and safety for Residential Life staff, including Residential Life professional staff and Resident Advisors, and Greek Life house managers, who in turn share that information with residents. In addition, basic fire safety information is provided to all new University employees as part of the Human Resources Orientation. The University conducts 3–4 fire drills in the residential areas each year, at different times of day and on different days of the week. The goal of these drills is to reinforce with students the proper procedures to follow in the event of an actual fire. Staff members are also present to then discuss with those who evacuated the building what they did well, and what needed to be improved. Staff also walk
through the buildings during these drills to ensure that all equipment is working properly, and to inspect the building for any fire safety concerns.

6. Reporting Fires Already Extinguished
Per federal law, the University is required to annually disclose statistical data on all fires that occur in on-campus student housing facilities. Listed below are the phone numbers to call to report fires that have already been extinguished in on-campus housing. These are fires for which you are unsure whether WUPD or Protective Services may already be aware. If you find evidence of such a fire or if you hear about such a fire, please contact one of the following:

Danforth Campus
On the Danforth Campus, all fires, including those that have already been extinguished, should be reported to the WUPD at (314) 935-5555.

Medical Campus
On the Medical Campus, all fires, including those that have already been extinguished, should be reported to WUSM Protective Services at (314) 362-HELP (4357).

7. Plans for Future Improvements
The University is committed to providing students, faculty, and staff with a safe campus environment. In furtherance of that goal, the University regularly reviews and, when appropriate, revises and/or enhances its fire safety, prevention, and response procedures and equipment. By the end of 2012, all on-campus residential properties (residence halls, apartments, and fraternities) will have upgraded fire alarm systems, sprinkler systems, and smoke and carbon monoxide detectors in each sleeping room. The University is also in the process of planning and implementing fire safety improvements in our off-campus housing, including building alarms and carbon dioxide and smoke detection systems.

8. Fire Statistics and Fire Log
Federal law requires every institution of higher education with on-campus housing to maintain a log that records all fires in on-campus housing facilities and report certain fire statistics set forth below. For these purposes, the university considers a “fire” to include any instance of open flame or other burning that is either uncontrolled, or located in a place not intended to contain the burning.

The information below identifies those fires that have occurred in on-campus residential housing facilities during the calendar year 2011:

Danforth Campus (also available at www.police.wustl.edu/firelog.html):
FIRE Dec 3, 2011 - Saturday at 15:01
Location: MUDD 11-12-03-075471
Summary: Maintenance received notification call from RA at Mudd regarding an earlier kitchen fire that was extinguished with a fire extinguisher prior to any alarms sounding. Maintenance advised no damage. PD not notified. Disposition: Cleared.

FIRE Nov 21, 2011 - Monday at 14:13
Location: MILLBROOK 1 110438
Summary: Student started a fire when they placed a candle on a plate, then lit the burner under the plate. Damage to hood and stovetop. No injuries. Loss value $100. Disposition: Cleared.

Medical Campus (also available at wusmproserv.wustl.edu):
FIRE February 10, 2011 - Friday at 17:58
Location: Olin Hall
Summary: Unintentional - Smoking
The fire was contained in an outside window well, which did not cause any damage.
Federal law requires that the University disclose statistics for the offenses below that occur (1) on campus; (2) in or on non-campus buildings or property owned or controlled by the University; and (3) on public property within or immediately adjacent to campus, as those terms are defined in the Campus Security Act.

Under the Campus Security Act, the following criminal offenses must be reported and disclosed: murder, manslaughter (both negligent and non-negligent), sex offenses (both forcible and non-forcible), aggravated assault, arson, burglary, robbery, and motor vehicle theft. In addition, the University is required to provide statistics related to liquor law violations, drug abuse violations, and weapon law violations that resulted in either an arrest or documented referral for disciplinary action. Finally, the University is required to disclose statistics for a separate category of bias-related “hate” crimes, including murder, non-negligent manslaughter, sex offenses (forcible and non-forcible), robbery, aggravated assault, burglary, motor vehicle theft, larceny-theft, vandalism, intimidation, simple assault, and damage/destruction/vandalism of property.

Campus crime, arrest, and referral statistics include those reported to the WUPD, Protective Services, individuals designated “Campus Security Authorities” as defined by the U.S. Department of Education, and local law enforcement agencies.

In collecting the statistics to be reported, the University requests data from local law enforcement authorities in the cities of St. Louis, Clayton, Maryland Heights, and University City, and in St. Louis County.

Each year, the University sends an email notifying all students, faculty, and staff of the Annual Security Report and providing a link to the Safety and Security Brochure on the University’s website. Hard copies of the brochure may be printed from the website or obtained in person from the WUPD or Protective Services.
10. Drug and Alcohol Abuse Prevention and Education
See Alcohol and Drug Policies, page 31.

11. Sexual Assault Programs
See Sexual Assault and Other Sex Crimes, page 33.

12. Campus Sex Crimes Prevention Act
Under the Campus Sex Crimes Prevention Act, persons required to register under a state offender registration program must notify the state concerning each post-secondary school at which the offender works or is a student. In Missouri, sex offenders must register with the police department in the city or county in which they live or work. To view or purchase registry lists, contact either the St. Louis City Police at 1200 Clark Ave., Room 114, St. Louis, MO 63103, or the St. Louis County Police at 7900 Forsyth, Record Room, Clayton, MO 63105. The State of Missouri also maintains a registered sex offender database on the Internet that can be found at www.MSHP.dps.missouri.gov.

13. Disclosures to Alleged Victims of Crimes of Violence or Non-forcible Sex Offenses
The University will, upon written request and in accordance with the law, disclose to the alleged victim of a crime of violence, or a non-forcible sex offense, the results of any disciplinary hearing conducted by the University against the student who is the alleged perpetrator of the crime or offense. If the alleged victim is deceased as a result of the crime or offense, the University will provide the results of the disciplinary hearing to the victim’s next of kin, if so requested.

14. Emergency Response and Evacuation Procedures

15. Missing Student Notification Policy and Procedure
See Missing Student Notification Policy and Procedure, page 32.

3. Facilities Security Policies
See University At a Glance, page 4; Facilities, page 5; and Police Services, page 7.

4. Law Enforcement Policies

5. Campus Security Educational Programs

6. Crime Prevention Programs

7. Student Criminal Activity Off-Campus
When a WU student is involved in an off-campus criminal or judicial offense, WUPD may assist with the investigation in cooperation with local, state, or federal law enforcement. Local law enforcement agencies routinely work and communicate with campus officers on any serious incidents occurring on campus or in the immediate areas surrounding campus. Local municipal law enforcement agencies have primary jurisdiction in all areas off campus, including those areas off campus where student organizations recognized by the University may be located; however, WUPD and/or Protective Services can and do often respond to student-related incidents that occur in close proximity to campus. WUPD and Protective Services officers have direct radio communications with local police, fire, and ambulance services to facilitate rapid response in any emergency situation. The University monitors and documents these off-campus criminal activities by its students of which it becomes aware through local police or otherwise, including at off-campus locations of student organizations officially recognized by the University.

8. Alcohol Policy
See Alcohol and Drug Policies, page 31.

9. Drug Policy
See Alcohol and Drug Policies, page 31.
Alcohol and Drug Policies

Washington University seeks to encourage and sustain an academic environment that respects individual freedoms and promotes the health, safety, and welfare of its students, faculty, staff, and visitors. As adults, all students, faculty, staff, and visitors are expected to know and obey the applicable laws and all University rules and regulations and to be responsible for their own behavior.

Washington University complies with federal laws on drug and alcohol abuse prevention. These laws require that, as a condition of receiving federal funds (particularly student aid funds), Washington University adopt and implement a program to prevent the unlawful possession, use, and distribution of illicit drugs and alcohol by students and employees. The manufacture, distribution, possession, or use of illicit drugs and the unlawful possession, use, or distribution of alcohol on Washington University property, or as part of any of University activities, are prohibited.

Anyone who violates the law or University policy is subject to discipline within the University. Students are subject to discipline under the University Student Judicial Code (www.wustl.edu/policies/judicial.html) and to sanctions ranging from warnings to expulsion. Faculty and staff members are subject to a full range of sanctions, up to and including dismissal. Those who violate the law also may be subject to criminal prosecution.

The University’s Drug and Alcohol Policy was adopted in accordance with the Drug-Free Workplace Act and the Drug-Free Schools and Communities Act and is published in Course Listings, The Record, and employee, faculty, and student handbooks. The Drug and Alcohol Policy is also available on the World Wide Web at hr.wustl.edu/policies/Pages/DrugandAlcoholPolicy.aspx. The University also publishes a policy addressing alcohol use and possession on campus, and on University property, which includes the Danforth Campus and the Medical Campus.

Questions concerning Washington University’s Alcohol and Drug policies and its provisions should be directed to:

Tamara King, Director of Judicial Programs ........................................ (314) 935-4174
Mary Elliott, Associate Director of Residential Life ................................. (314) 935-5050
Jill Carnaghi, Associate Vice Chancellor for Students/Dean of Campus Life ........................................ (314) 935-5022
Human Resources (Danforth Campus) ........................................... (314) 935-7746
Human Resources (Medical Campus) ........................................... (314) 362-7196

Substance Abuse Prevention and Education Programs

Early recognition and treatment of drug or alcohol abuse are important for successful rehabilitation, and for reduced personal, family, and social disruption.

Washington University encourages the earliest possible diagnosis and treatment for drug and alcohol abuse; however, the decision to seek diagnosis and accept treatment for drug or alcohol abuse is the responsibility of the individual.

The University encourages faculty, staff, and students to seek assistance in dealing with a substance abuse problem, or those problems of a family member, by contacting available resources. University resources include Student Health Services (Danforth Campus, 314-935-6666); Student Health Services (Medical Campus, 314-362-3523); the Mental Health Services (314-935-6666); the WUSM Department of Psychiatry (314-362-7002); and the Employee Assistance Program (1-800-765-9124).

In particular, the Habif Health & Wellness Center offers programs and services for problems related to alcohol and other drugs. For treatment and information on the health effects of drug use and high-risk drinking or to schedule a personal assessment, contact Betsy Foy, Substance Abuse Specialist at (314) 935-7386. Health Promotion Services and the Student Health Advisory Committee can also assist in organizing peer education programs by contacting Student Health Services at (314) 935-6666. Useful information and links are also available at shs.wustl.edu.

The University’s Employee Assistance Program also provides confidential, professional assistance to benefits-eligible University employees and their family members to help resolve problems that are affecting their personal life or job performance. The program is managed by People Resources, a nationally known professional consulting firm specializing in EAP services.

Employees can contact People Resources 24 hours a day, seven days a week to arrange a confidential appointment with a specialist. EAP specialists have professional training and expertise in a wide range of issues such as marriage and family problems, alcohol and drug abuse, emotional and psychological concerns, financial difficulties, stress, and much more.

The EAP can be reached by calling 1-800-765-9124 or visiting their website at www.worklifetools.com.

Numerous non-University counseling programs also exist in the St. Louis metropolitan area. Many programs advertise extensively in local media. Consultation with one’s personal physician is advised prior to self-referral to such non-University programs. For further information regarding referral to such programs, contact Student Health Services on the Danforth or Medical Campuses or your private physician.
Missing Student Notification Policy and Procedure

Washington University is committed to ensuring the safety of the members of our University community. In keeping with that goal, and in accordance with the Higher Education Act of 2008, 20 U.S.C. § 1092(j), the University has established the following Missing Student Notification Policy and Procedure.

Registration of Confidential Contact Information

1. Students residing in on-campus housing have the option to register a confidential contact person who will be notified in accordance with this policy if the Washington University Police Department ("WUPD"), the Department of Protective Services at the School of Medicine ("Protective Services"), or local law enforcement determines that the student is missing.

2. For purposes of this policy, the term "on-campus housing" means property that is owned, maintained, and/or operated by Washington University, the occupancy of which is governed by a contract with the Office of Residential Life or the Office of Greek Life. This term also includes the Olin Residence Hall at the School of Medicine ("WUSM").

3. The confidential contact may be someone other than the emergency contact listed with the Office of Student Records or, at WUSM, with the Office of the Registrar. The student may register more than one confidential contact.

4. Only authorized campus officials and law enforcement officers pursuing the missing person investigation will have access to this information.

5. A student may register such confidential contact information at any time by filing a Confidential Contact Form with the Office of Residential Life or, at WUSM, with Protective Services. A copy of this Policy and Confidential Contact Forms are available online at http://www.wustl.edu/policies.

6. Each student who files a Confidential Contact Form is solely responsible for the accuracy of the contact information and for updating information, as necessary. A student may update information by filing a new Confidential Contact Form with the appropriate office.

Missing Student Procedures

1. If a member of the University community suspects that a student may be missing, they should immediately notify the WUPD or Protective Services. In addition, missing person reports may be made to the following offices:
   - Dean of Students;
   - Office of Student Involvement and Leadership;
   - Office of Residential Life.

   Official missing student reports made to any of the above-referenced offices must be referred immediately to the WUPD or Protective Services.

2. Upon receipt of a report that a student is missing, the WUPD or Protective Services will gather information to complete a Missing Persons Report Form, including but not limited to:
   - Name, location, and contact information of the person who reported the student missing;
   - Name, vital information, and a detailed description of the student reported as missing;
   - The circumstances in which the student was last seen or heard from;
   - List of known associates, addresses, and contact information;
   - Name/addresses of persons present at the scene.

3. Additional information that the WUPD or Protective Services will consider in determining whether a student is missing includes, but is not limited to, the following:
   - a student is out of contact for 24 hours after reasonable efforts to reach that student by phone calls, emails, and/or in-person attempts to establish contact;
   - circumstances indicate that an act of criminality is involved;
   - circumstances indicate that physical safety is in danger;
   - existence of a medical condition may threaten life or health; and/or
   - existence of a physical or mental disability.

4. If the WUPD or Protective Services determines that a student residing in on-campus housing has been missing for twenty-four (24) hours, the WUPD or Protective Services will initiate the emergency contact procedures outlined herein.
Notification Procedures
1. Whenever WUPD, Protective Services, or local law enforcement determines that any student residing in on-campus housing has been missing for 24 hours, the University will notify the following persons within 24 hours of that determination:
   • The confidential contact, if one has been specified by the student;
   • The parents or guardians of any student who is under the age of 18 and not an emancipated minor; and
   • Local law enforcement (unless local law enforcement made the determination).

2. Whenever WUPD or Protective Services determines that any student, whether residing on campus or not, has been missing for 24 hours, the University will notify local law enforcement.

3. Nothing in these policies and procedures shall prevent WUPD or Protective Services from initiating these and other emergency notification procedures within 24 hours of any student’s disappearance if, in the judgment of the WUPD or Protective Services, the circumstances of the student’s disappearance warrant an earlier notification.

Sexual Assault and Other Sex Crimes

Washington University is dedicated to creating a safe and respectful learning community, free from any form of sexual assault, harassment, and violence. The University views sexual violence as a community health issue and proactively addresses the issue with this philosophy, engaging all members of the Washington University and greater community to participate in the effort to stop sexual violence.

The information provided below is intended to assist survivors of sexual assault, both female and male, and the friends who support survivors. The campus resources for sexual assault prevention and survivor support include resources that can assist you in recognizing abuse, knowing your rights, and attaining medical, counseling and legal assistance if you need or choose to access these services. These resources are available to all members of the University community.

What to Do
If you are in danger or if you need immediate medical care, call:

Danforth Campus: the Washington University Police Department at (314) 935-5555

Medical Campus: the Washington University School of Medicine (WUSM) Protective Services at (314) 362-HELP (4357)

Off Campus: dial 911

These steps are important to follow to the extent possible after a rape or sexual assault:
   • Leave the scene as is and get to a safe place immediately.
   • Call someone who can help and support you through this process, such as a friend or relative, the police, your Resident Advisor or Residential College/Community Director (RCD), campus resources, or other community agencies (see resource list below).

• Get medical attention right away*. Even if you do not want to report the event to the police, you may have hidden internal injuries, sexually transmitted infections, or a pregnancy that requires medical care.

• Do not shower, drink, eat, brush your teeth, or change your clothes. Such activities destroy physical evidence which could be useful in possible prosecution of the alleged perpetrator. If you have already done so, which is a normal response, you should still seek medical care, as these activities do not necessarily prevent the collection of evidence.

• Consider contacting Kim Webb, the Assistant Director of Sexual Assault and Community Health Services at (314) 935-8761, available 24/7, or one of the other campus or community resources below.

• Consider contacting the police. The WUPD may be reached at (314) 935-5555, WUSM Protective Services may be reached at (314) 352-HELP (4357), or you can dial 911 to reach the police in the area in which the assault took place. If you wish, the police may meet you at the hospital.

• Write down everything that you remember. When you get a quiet moment, record everything that you remember. Even if the detail seems minute to you, it may be important. This may help you through your own healing process, as well as with any legal action you may decide to take.

* Even if you feel scared or uncomfortable, the importance of seeking medical attention cannot be overstated. Hospital staff is accustomed to dealing with sexual assault injuries. It is recommended that you go to a comprehensive care facility, such as Barnes/Jewish Hospital or St. Mary’s Health Center, which have a Sexual Assault Nurse Examiner (SANE) trained to give specialized medical care to victims involved in a sexual assault and to gather forensic evidence if desired.
The most comprehensive, complete medical care, including emergency contraception (a way to prevent pregnancy after unprotected sex), is available at these hospital emergency rooms:
1. St. Mary’s Health Center ............... (314) 768-8360
2. Barnes-Jewish Hospital
   (affiliated with WU) ..................... (314) 362-9123
3. Missouri Baptist Hospital ............. (314) 996-5225
4. St. John’s Mercy Medical Center ....... (314) 569-6090
5. Saint Louis University Hospital ....... (314) 577-7777

Emergency contraception (EC) is available without a prescription at Student Health Services and at the emergency rooms listed here. Should EC not be readily offered as part of the protocol, you may ask for it. For detailed information on EC, including how to obtain it at Student Health Services (SHS) and local pharmacies, visit shs.wustl.edu.

Filing a Report
Washington University encourages you to timely file a police report about the incident and, if you choose to file a report, will assist you in notifying the appropriate law enforcement authorities. Time is a critical factor for evidence collection and preservation. To file a police report, please call WUPD at (314) 935-5555 or WUSM Protective Services at (314) 362-HELP (4357). If you would like assistance or support in contacting the police and filing a police report, please contact Kim Webb, Assistant Director of Sexual Assault and Community Health Services at (314) 935-8761. Your case will be treated with courtesy, sensitivity, dignity, understanding, and professionalism. Filing a police report will not obligate you to criminally prosecute the accused or charge the accused under the Judicial Code. If you would like assistance or support in contacting the police, please call WUPD at (314) 935-5555 or WUSM Protective Services at (314) 362-HELP (4357). If you would like assistance or support in contacting the police, please contact Kim Webb, Assistant Director of Sexual Assault and Community Health Services at (314) 935-8761.

Sexual Assault Response Commitment
Sex crimes, including acquaintance rape, are a very serious concern of WUPD and Protective Services. We have specially trained female and male officers to assist you. If you feel you are a victim of a sex crime on campus, the WUPD and Protective Services will guarantee the following:

- We will meet with you privately, at a time and place of your choice, to take your report.
- If you would feel more comfortable talking with a friend or advocate of your choice present, we will do our best to accommodate your request.
- We will not notify your parents without your consent.
- We will treat you and your particular case with courtesy, sensitivity, dignity, understanding, and professionalism.
- Our officers will not prejudge you, and you will not be blamed for what occurred.
- We will assist you in arranging for any necessary hospital treatment or other medical needs. We will also assist in locating emergency housing if needed.
- We will fully investigate your case and help you to achieve the best outcome. This may involve the arrest and full prosecution of the suspect responsible. You will be kept up-to-date on the progress of the investigation and/or prosecution.
- We will assist you in privately contacting counseling and other available resources.
- We will continue to be available to answer your questions, explain your options, explain your rights, explain the system and process involved (prosecutor, courts, etc.), and be a listening ear if you wish.
- We will consider your case seriously regardless of your gender, sexual orientation, or the gender or status of the suspect.

If you feel you are a victim of a sex crime, call the WUPD at (314) 935-5555 or Protective Services at (314) 362-HELP (4357), any time of the day or night to file a report.

If you choose not to file a report with the police, the University strongly encourages you to file an anonymous or confidential report through WUPD’s Silent Witness program or through Protective Services’ Campus Watch Hotline (see Reporting a Crime, page 15) to assure that the incident is known to University officials who are concerned about campus safety. By filing a confidential or anonymous report form, this allows the University to better determine whether there are patterns of crime with regard to a particular location, method, or offender, and alert the community to potential danger if appropriate. Confidential or anonymous report forms are also available at Student Health Services, the Office of Campus Life, the Office of Judicial Programs, Residential Life, and WUPD.

The University has a judicial hearing process for incidents of alleged sexual misconduct. Details of this process can be discussed confidentially with Tamara King, Director of Judicial Programs, at (314) 935-4174. Speaking with the Director of Judicial Programs does not mean that you must file judicial or criminal charges. A report made to the Director of Judicial Programs does not preclude your right to file a public police report and seek criminal prosecution if you are a victim of sexual assault. Washington University will provide assistance to the victim of sexual assault by facilitating any of these processes and will work to change her/his academic or living situations, if requested and reasonably available, through the Director of Judicial Programs, Tamara King, at (314) 935-4174.
WU Judicial Code

UJC Offenses

The Washington University Judicial Code (UJC), which can be found online at http://www.wustl.edu/policies/judicial.html, sets forth defined Offenses in Section III of the UJC, one of which clearly prohibits sexual contact without consent, and states that students engaging in such conduct are subject to disciplinary action:

III.A.5. "Sexual contact with any member of the University community or visitor to the University without that person’s consent, including, but not limited to, rape and other forms of sexual assault. Conduct will be considered ‘without consent’ if no clear consent, verbal or nonverbal is given; if inflicted through force, threat of force, or coercion; or if inflicted upon a person who is unconscious or who otherwise reasonably appears to be without the mental or physical capacity to consent. For example, sexual contact with a person who reasonably appears to be impaired in the exercise of their judgment by alcohol or other drugs may be considered ‘without consent’.”

Missouri Statutory Definitions

Under Missouri law, “rape” and “forcible sodomy” are crimes of genital or anal penetration, committed by use of force and without consent. Mo. Rev. Stat. §§ 566.030 and 566.060. “Sexual assault” and “deviate sexual assault” are similar crimes, but need not involve force. Mo. Rev. Stat. §§ 566.040 and 566.070. “Sexual abuse” is defined as sexual contact by the use of forcible compulsion. Mo. Rev. Stat. § 566.100. Whether committed by a stranger, friend, or date, these sex crimes are criminal offenses subject to prosecution under the law.

The University considers all of these acts to be sexual assault. While some Missouri statutes are gender or body-part specific, both men and women can be perpetrators or victims of various forms of sexual assault. These acts, and others, are also violations of the University Judicial Code’s prohibition on sexual contact without consent.

Acquaintance rape, or date rape, is commonly understood as a sexual assault in which the survivor (male or female) and the perpetrator (male or female) know each other. The perpetrator may be a casual acquaintance, friend, or a steady dating partner. Acquaintance rape is punishable by law—and under the Judicial Code—to the same degree as stranger rape.

Drugs can be used in cases of sexual assault and rape to quickly sedate victims and render them incapable of defending themselves. Alcohol is the most prevalent drug, on the WU campus and nationwide. If you think you have been drugged, time is of the essence. Seek a drug test at a hospital immediately.

A report made to the University Judicial Administrator does not preclude your right to file a public police report and seek criminal prosecution if you are a victim of rape, sexual assault, or other sexual offenses.

Judicial Code Hearing Process

University Judicial Code disciplinary proceedings, as well as special procedures for cases involving sexual assault, are detailed in the University Judicial Code (UJC), which can be found online at http://www.wustl.edu/policies/judicial.html. UJC proceedings against an accused student apply regardless of where the alleged sex offense occurred. The UJC currently provides, in part, that the charging party (or the victim, if the victim is not the charging party) and the accused may be accompanied to the disciplinary hearing by one individual; for example, a friend, faculty member, advisor or parent. The function and role of the accompanying individual is to provide support, advice, or assistance to the person requesting his or her presence.

A student found in violation of the UJC provision prohibiting sexual contact without consent, may, depending on the circumstances, be subject to a range of sanctions, including but not limited to restricted access and activity on campus, no-contact orders, counseling, institutional service, educational workshops, fines, probation, suspension or expulsion from the University, even for a first-time offender. In addition, the accused student may be referred for criminal prosecution in the state courts.

In accordance with federal law, the University will notify both the victim and the accused student of the final outcome with respect to UJC disciplinary proceedings alleging a sex offense, including certain sanctions imposed against the accused.

Rights of a Survivor

- You have the right to receive medical care and mental health treatment or participate in legal procedures only after giving informed consent.
- You have the right to keep your name from the media.
- You have the right to be protected against future assaults.
- You have the right not to report to the police.
- You have the right to as much credibility as a victim of any other crime.
- You have the right to be treated with dignity and respect.

Support on Campus

Immediately following the assault, and later when you may find you need ongoing support and counseling, people on campus are ready to help. Whether you live off or on campus, you may call anyone at the University with whom you feel safe and comfortable. Do not go through this experience alone.

Sexual Assault Response Team (SART)

WU has made special arrangements with SART, the YWCA’s on-call Sexual Assault Response Team, to provide confidential assistance and support to the WU community. A staff member from Washington University Police Department (WUPD) or Student Health Services (SHS) can contact SART for you (see phone numbers below). A SART volunteer can come to campus to meet you. If you prefer to meet a volunteer at the
hospital, know that the volunteers serve all local hospitals listed above and are available for you whether or not you request assistance.

**Washington University Police Department (WUPD) or WUSM Protective Services**

Call WUPD at (314) 935-5555 or WUSM Protective Services at (314) 362-HELP (4357) to contact SART and/or to make a report.

Committed to Assisting Survivors of Sexual Assault, WUPD and WUSM Protective Services are a 24-hour, 12-month resource.

**How to Help a Friend**

- Listen and be supportive. Your friend may reveal some graphic information. It is important not to overreact. Believe your friend and let your friend know you do. People rarely lie about rape or sexual assault. Focus on supporting the survivor; this is not about you or your thoughts and feelings about the incident.

- Give your friend the chance to talk about the experience and her or his feelings. Be thoughtful in your responses. Questions about your friend’s actions or judgment statements can further blame the survivor and add to the sense of guilt or shame.

- Communicate to your friend that any feelings she or he may have are normal and understandable. Supporting a friend means validating her or his feelings and emotions.

- Show interest, but do not pry or ask for specific details, which may make the survivor relive the experience. Allow your friend to be silent. You do not have to speak when she or he stops talking.

- Avoid making decisions for the survivor. Instead, listen and then ask how you can help.

- Help your friend regain some sense of control. Support your friend in making decisions about whom to tell and how to proceed.

- Do not touch or hug your friend without permission.

- Recognize your own limitations. No one expects you to be an expert in counseling or sexual assault; therefore, avoid making strong recommendations to the survivor.

- Realize that as a friend you may need counseling to cope with the events your friend may have shared with you. Counseling services are available through the Washington University Student Health Services or by calling (314) 935-6666.

**Sexual Assault Prevention and Education**

The Habif Health and Wellness Center’s Sexual Assault and Community Health Services office is the primary provider of sexual assault education and prevention on campus. All incoming freshmen are required to attend two programs, The Date and Choices, during Orientation. Both of these programs examine issues of sexual assault and alcohol on campus in thought-provoking skits and engage students in follow-up discussion regarding healthy and safe decision-making when faced with difficult choices. In addition, Kim Webb, the Assistant Director of Sexual Assault and Community Health Services, coordinates with other departments and members of the University community in providing education and training sessions on the prevention of sexual assault throughout the year, including topics such as bystander intervention, healthy sexual relationships, communication and consent, relationship violence, drug and alcohol-facilitated sexual assault, and how to support a survivor of sexual assault. To schedule a program or training session, please contact Kim Webb at (314) 935-8761 or email kim_webb@wustl.edu.

Sexual Harassment

This brochure contains excerpts from Washington University’s Sexual Harassment Policy. The full policy, as well as the full Discriminatory Harassment Policy, is published in *Bearings*, in *The Record*, in the University’s faculty information booklet, and online. The Sexual Harassment policy can be found at www.wustl.edu/policies/sexharas.html, while the Discriminatory Harassment policy can be found at hr.wustl.edu/policies/discriminatoryharassment.aspx. You also may obtain a copy of either policy from the Human Resources offices at N. Brookings Hall, Room 126, on the Danforth Campus; Room 150, 7509 Forsyth Blvd., on the West Campus; or from the School of Medicine Human Resources office.

Committed to having a positive learning and working environment for its students, faculty, and staff, Washington University will not tolerate sexual harassment.

Sexual harassment is an attack on the dignity of individuals and the integrity of the University as an institution of learning. Academic freedom can exist only when every person is free to pursue ideas in a nonthreatening, non-coercive atmosphere of mutual respect. Sexual harassment is reprehensible and threatening to the careers, educational experience, and well being of all members of our community. Sexual harassment is a form of discrimination that violates University policy. It is also illegal under state and federal laws.

The University policy on sexual harassment applies to all members of the Washington University community. It allocates responsibilities for helping to ensure that University policy is fairly applied, explains the processes by which complaints of sexual harassment may be brought forward, and provides sanctions for sexual harassment that may range from reprimands to termination or dismissal, depending on the severity of the offense.

If you believe you have been sexually harassed, the policy describes options about what you can do and where you can get help. If you believe you have been falsely accused of sexual harassment, the procedures are also available to you. Those charged with implementation of the policy will, whenever appropriate, encourage and assist individuals who believe they may have been sexually harassed to pursue the assorted means outlined in the policy for securing the cessation of unwelcome and offensive conduct.

Examples of conduct that may constitute sexual harassment include, but are not limited to:

- Requests for sexual favors
- Hugging, rubbing, touching, patting, pinching, or brushing another’s body
- Inappropriate whistling or staring
- Veiled suggestions of sexual activities
- Requests for private meetings outside of class or business hours for other than legitimate mentoring purposes
- Use in the classroom of sexual jokes, stories, or images in no way germane to the subject of the class
- Remarks about a person’s body or sexual relationships, activities, or experience
- Use of inappropriate body images to advertise events
- Sexual violence, including rape, sexual assault, sexual battery, and sexual coercion

Members of the University community can expect to be free from sexual harassment; thus all members of the University community should guard against it. The fact that someone did not intend to sexually harass an individual is generally not considered a sufficient defense to a complaint of sexual harassment, although the reasonableness of the accused’s perceptions may be considered. In most cases, it is the characteristics of the behavior, effect on the complainant, and whether a reasonable person similarly situated would find the conduct offensive that determine whether the behavior constitutes sexual harassment.

Confidentiality

The University will strive to protect, to the greatest extent possible, the confidentiality of persons reporting harassment and of those accused of harassment. Because the University has a legal obligation to address sexual harassment, however, the University cannot guarantee complete confidentiality where it would conflict with the University’s obligation to investigate meaningfully or, where warranted, take corrective action. Even when some disclosure of the University’s information or sources is necessary, it will be limited to the extent possible. The University will, to the extent permitted by law, keep confidential all records of complaints, responses, and investigations.

If you want to discuss possible harassment in a more confidential setting or clarify your feelings about whether and how you wish to proceed, you may want to consult a social worker, therapist, or member of the clergy, who is permitted, by law, to assure greater confidentiality. Clergy and counseling resources on campus are listed in *Bearings*, *Ternion* and the University’s *Safety and Security Brochure*, available at www.police.wustl.edu.

In addition, any member of the University community may contact the Student Health Services at 935-6666 for a confidential discussion and, if desired, referral to off-campus resources.

Seeking Advice, Making a Complaint

If you believe that you have been sexually harassed, you have a number of response options, both formal and informal. Some people may wish to pursue informal means instead of or before making a formal complaint; others will not. If an informal procedure is ineffective,
the formal procedures will remain open to you. You should select the route you feel is most appropriate to your circumstances. However you wish to proceed, you may consult at any time with the University’s Title IX Sexual Harassment Response Coordinator or Advisors, whose responsibilities include assisting students, faculty, and staff with sexual harassment issues, be they general or specific, formal or informal. You may wish to work with the Coordinator or Advisors to select an approach.

The University’s policy outlines options for obtaining advice and making complaints in some detail.

**Additional Resources**

Discrimination and Title IX Grievance Committee
North Brookings Hall, Room 126, Campus Box 1184

Ann B. Prenatt, Vice Chancellor for Human Resources .......................... (314) 935-7746

Kim Webb, Assistant Director of Sexual Assault and Community Health Services ............... (314) 935-8761

To file a formal complaint regarding sexual harassment involving students or student groups, contact:

Tamara King, Campus Box 1250
Director of Judicial Programs ......................... (314) 935-4174

The University will not tolerate retaliation or discrimination against persons who, in good faith, report or charge sexual harassment or against those who testify, assist, or participate in any investigation, proceeding, or hearing involving a complaint of sexual harassment.

**Washington University encourages and gives full consideration to all applicants for admission, financial aid, and employment. The University does not discriminate in access to, or treatment or employment in, its programs and activities on the basis of race, color, age, religion, sex, sexual orientation, gender identity or expression, national origin, veteran status, disability, or genetic information. Inquiries about compliance should be addressed to the University’s Vice Chancellor for Human Resources, Washington University, Campus Box 1184, One Brookings Drive, St. Louis, MO 63130.**
Resources

Campus Services and Resources

All Emergencies
Police/Fire/Medical,
On Danforth Campus, call the WUPD at (314) 935-5555
On Medical Campus, call WUSM Protective Services at (314) 362-HELP (4357)

WUPD (Danforth Campus)
Lien Hall, Shepley Drive (South 40),
Campus Box 1038,
St. Louis, MO 63130-4899.........................(314) 935-5555
www.police.wustl.edu
WUPD officers are available 24 hours a day to respond to any call involving an emergency or need for police assistance.

WUSM Protective Services (Medical Campus)
4526 Children’s Place
St. Louis, MO 63110-1031.........(314) 362-HELP (4357)
wusmproser.v.wustl.edu
WUSM Protective Services officers are available 24 hours a day to respond to any call involving an emergency or need for police assistance.

Emergency Support Team (EST) - Danforth Campus
Campus Box 1201.................................(314) 935-5555
The Washington University Emergency Support Team (EST) is a volunteer student organization that provides 24-hour emergency medical care to the Washington University community. Half of the members are licensed Emergency Medical Technicians (EMTs), and the other half are certified in standard first aid. EST additionally offers classes in CPR and first aid, provides first aid for special campus events, and co-sponsors an EMT class each spring.

Environmental Health & Safety (EHS)
University Safety Officer, Environmental Health & Safety Office.........................(314) 362-6816
The Environment Health & Safety Office acts as a resource to provide assistance, advice, or training concerning occupational safety and health issues. Areas included are fire safety, hazard abatement, risk management, and accident investigation. The staff also provides assistance in the areas of ergonomics, lock-out tag-out, confined space, indoor air quality, and asbestos.

Dean of Students, Office of
Justin Carroll, Associate Vice Chancellor for Students,
Dean of Students
Residential Life Center, South Forty House
Campus Box 1250.................................(314) 935-5050
The Dean of Students oversees the following student services and programs: Athletics (intercollegiate, intramurals, club sports, recreation and physical education); Housing and Residential Life; and student discipline.

Director of Judicial Programs
Tamara King, Residential Life Office,
Campus Box 1250.................................(314) 935-4174
The Judicial Administrator (JA) serves as the primary contact person for members of the Washington University community who have questions regarding their rights and responsibilities under the University Judicial Code and who may want to file a complaint. The JA receives and investigates complaints of violations of the University Judicial Code, www.wustl.edu/policies/judicial.html; determines whether a violation occurred; and, if so, imposes appropriate sanctions. The JA may refer certain cases to the University Judicial Board.

Habif Health & Wellness Center Student Health Services (Danforth Campus)
Habif Health & Wellness Center ..............(314) 935-6666
In the Nathan Dardick House on the South 40, the Habif Health & Wellness Center provides Medical, Mental Health, and Health Promotion Services designed to enhance the physical and emotional well-being of students.

For comprehensive information on these services, visit our website at shs.wustl.edu.

There is a nurse answer line available to answer any questions a student may have after-hours when SHS is closed.

For after-hours care, please call 935-6666.

Olin Residence Hall (Medical Campus)
Teresa Holloway, Director.............(314) 362-3230
4550 Scott Ave.
St. Louis, MO 63110-1031

Olin Residence Hall provides housing for approximately 160 men and women, which includes medical and graduate students in the School of Medicine, and those enrolled in Physical Therapy, Occupational Therapy, Program in Audiology and Communication Science, Genetic Epidemiology, and the Division of Biology & Biomedical Sciences.
Residential Life, Office of  
Residential Life Office, South Forty House  
Campus Box 1250.................................(314) 935-5050

Village Office, Village House  
Campus Box 6500.................................(314) 935-8828

Monday–Friday, 8:30 a.m.–5 p.m.

The Office of Residential Life is responsible for campus student housing and related services. The staff is available to advise individuals and provide access to diverse services. This office oversees Resident Advisors and the Resident Advisor Duty Office.

Resident Advisors (RAs)  
Please see campus phone directory for individual residence hall listings.

RAs are available to provide a support system for students.

Resident Advisor Duty Office,  
Residence Life Center .......................(314) 935-6071

Monday–Friday, 5 p.m.–12 a.m.; Saturday and Sunday, 1:30 p.m.–12 a.m.

Staffed by two RAs, the Duty Office is available to students in cases of emergencies. The RA Duty Office is located in South 40 House in the Residential Life Annex.

Sexual Assault and Rape Anonymous Helpline (SARAH)  
SARAH .............................................(314) 935-8080

SARAH is a 24-hour confidential helpline run by students during the academic year. Open to all members of the Washington University community, the helpline provides information and referrals. All SARAH volunteers have received at least 60 hours of training on issues related to sexual assault.

Student Health Services (Medical Campus)  
The Student Health Service on the Medical Campus provides on-site medical, mental health, and health promotion services to medical campus students.  
The Student Health Service office is located on the 3rd Floor of the East Building, 4525 Scott Avenue, Suite #3420. Their hours are 8:00 a.m - 4:00 p.m., Monday through Friday. The contact numbers are: Phone: (314) 362-3523, Fax: (314) 362-0058, Internet: wusmhealth.wustl.edu.

Uncle Joe’s Peer Counseling and Resource Center  
Gregg House, basement  
Phone counseling 24 hours .......................(314) 935-5099

In-person counseling 10 p.m.–1 a.m. every night during semesters

Uncle Joe’s is a student-run peer counseling service. The students who work at Uncle Joe’s are available for confidential guidance and referrals by phone or in person. Uncle Joe’s has information and resources for dealing with a wide range of problems encountered by college students.

University Sexual Assault Response Team  
Kim Webb, Chair...............................(314) 935-8761

This is a multidisciplinary group composed of administrators, faculty, and community response members. This team is devoted to strengthening the community response, internally and externally, in order to provide the most compassionate and efficient care possible for students.

Committee Organized for Rape Education (CORE)  
su.wustl.edu/directory

CORE is a co-educational student group specializing in reducing the risk of sexual assault and related issues.

Parking and Transportation Services  
700 Rosedale (near the corner of Skinker and Rosedale),  
Campus Box 1200................................. (314) 935-5601

Monday–Friday, 8:30 a.m.–5:00 p.m.

www.parking.wustl.edu

Transportation information..................... (314) 935-4140

www.parking.wustl.edu

Parking and Transportation Services handles parking permits and tickets. It is also responsible for the University's transportation programs.

Off-Campus Services and Resources  
The following services and resources may be able to help you. They are not affiliated with Washington University in any way.

All Emergencies  
Police/Fire/Medical  
Off campus call ........................................ 911

Crime Victims Assistance  
Aid for Victims of Crime.......................(314) 652-3623

24-hour, 7-days-a-week hotline for victims of all types of crimes. Provides emotional aid, information, and referral services.

Crisis and Counseling  
Life Crisis Services  
24-Hour Hotline ............................... (314) 647-HELP (4357)

Especially for suicide intervention.

Rape and Violence End Now (RAVEN)  
7314 Manchester,  
Maplewood, MO 63143 .........................(314) 289-8000

Monday–Friday, 8 a.m.–6 p.m.

Individual and group therapy for men who abuse women emotionally or physically.

Fees are negotiable.
Safe Connections
2165 Hampton Ave.,
St. Louis, MO 63109 .........................(314) 531-2003
24-hour crisis hotline for women who have experienced physical, emotional, and sexual abuse. In-person individual counseling is also offered.

YWCA St. Louis Regional Sexual Assault Center
140 N. Brentwood Blvd.,
Clayton, MO 63105 .................(office) (314) 726-6665
...........................................(hotline) (314) 531-7273
The YWCA Women’s Resource Center offers confidential counseling and a number of classes on assertiveness, self-defense, and other topics. The center also coordinates SART (Sexual Assault Response Team), which consists of a group of volunteers trained to provide crisis intervention to victims of sexual assault. SART volunteers are available to victims receiving medical attention at the hospitals close to Washington University.

Appendix C

Fire Safety Systems, Medical Campus–Olin Residence Hall

Olin Residence Hall is the on-campus housing facility for Washington University School of Medicine students. The dorm is protected by a voice fire alarm system with smoke detection in all sleeping rooms and hallways. Sprinklers protect the first, second and third floors. Cooking areas are protected by a kitchen hood system. Smoke and heat detection systems protect the mechanical areas of the building.

Each floor has a firefighter hose cabinet to be utilized by fire department personnel in event of an actual fire on the floor.
