You can’t be too cautious when walking at night-----but you can minimize the risk and stress by practicing some safety precautions:

- **Never Travel Alone**
  Always travel with someone.

- **Walk In Well Lit Areas**
  Stay in well-lit areas as much as possible. Don’t walk in alleys or other isolated areas.

- **Be Alert**
  Always be aware of what is going on around you. Don’t wear headphones. Don’t engage in conversations with people you don’t know.

- **Trust your instincts!**
  If it doesn’t feel safe---it probably isn’t! Move to a safe spot immediately and call for help!

- **If a thief confronts you, give them what they want and don’t chase them.**
  **Blow your whistle!**

If you want more information about shuttles serving your destination, visit the Transportation Services website: transportation.wustl.edu or call 935-4140.
