2018: No crimes unfounded.

Per 2016 guidance issued by the US Department of Education and for purposes of compliance with the Clery Act and the HEOA, the University has classified as "on campus" those properties within one mile of the core Danforth Campus that the University owns or controls or that an Institution-Associated entity (e.g., Quadrangle Housing or Parallel Properties) owns or controls and operates in support of the University's educational purposes. The University, through its Title IX office or Relationship and Sexual Violence Prevention Center, received reports of 17 additional incidents; however these incidents are not included in the above data because they either (i) did not occur on property included within the "Clery geography" listed above or (ii) the reporting party did not disclose sufficient information regarding the nature of the incident or location that would allow the University to determine whether and how to classify and count these incidents.

Note that the 2013 data for forcible sex offenses "On Campus" includes two reported incidents for which the exact location of the incident on campus was not identified, and they have not been included in the "On Campus Residential Facilities" column. In addition, one reported forcible sex offense and one reported stalking incident did not include a specific location, but these have been included in the "On Campus" column. The 2013 statistics reflect an increase in the number of students who are reporting to the Office of Sexual Assault and Community Health Services.

Note that the 2012 data reported in the arrests and referrals for drug violations "On Campus" include arrests and referrals for which (i) the exact location of the activities that formed the basis of the referral is unknown and (ii) the location of the activities that formed the basis of the arrest/referral was both on and off campus. Where the University was able to determine that any activity took place in on-campus residence halls, those statistics are reported as on-campus and as on-campus residential housing.

Note that data representing alcohol and drug referrals in 2012 and 2013 has increased based upon a review and analysis of past reports documenting Residential Life staff response and follow-up with individual students after an incident involving a violation of Missouri liquor control or drug laws.
